### STATUTES OF THE UNIVERSITY OF EDINBURGH RELATIVE TO GRADUATION IN MEDICINE.

Edinburgh, 4th February, 1861.

Sect. I. Three Medical Degrees are conferred by the University of Edinburgh, viz.—Bachelor of Medicine (M.B.), Master in Surgery (C.M.), and Doctor of Medicine (M.D.). The Degree of Master in Surgery is not conferred on any person who does not also at the same time obtain the Degree of Bachelor of Medicine.

Sect. II. The preliminary branches of Extra-Professional Education are English, Latin, Arithmetic, the Elements of Mathematics, and the Elements of Mechanics; and the proficiency of Students in these branches is ascertained by Examination, as far as possible, prior to the commencement of their Medical Study.

Sect. III. No Candidate is admitted to a Professional Examination who has not passed a satisfactory examination on at least two of the following subjects, in addition to the subjects mentioned above:—Greek, French, German, Higher Mathematics, Natural Philosophy, Logic, Moral Philosophy; and the examination on these latter subjects also takes place, as far as possible, before the Candidate has entered on his Medical Curriculum.

The Examinations under Sections II. and III. are conducted by Examiners in Arts, together with some of the Medical Examiners.

Sect. IV. A Degree in Arts (not being an Honorary Degree) in any one of the Universities of England, Scotland, or Ireland, or in any Colonial or Foreign University, specially recognised for this purpose by the University Court, exempts from all Preliminary Examination.

Sect. V. No one is admitted to the Degree of Bachelor of Medicine or Master in Surgery who has not been engaged in Medical and Surgical Study for Four Years,—the Medical Session of each year, or *Annus Medicus*, being constituted by at least two courses of not less than one hundred lectures each, or by one such course, and two courses of not less than fifty lectures each: with the exception of the Clinical Courses, in which Lectures are to be given at least twice a-week during the prescribed periods.

Sect. VI. Every Candidate for the Degrees of M.B. and C.M. must give sufficient evidence by certificates—

1. That he has studied each of the following departments of Medical Science, during Courses including not less than one hundred Lectures, viz.:—

Anatomy, Chemistry, Materia Medica, Institutes of Medicine or Physiology, Practice of Medicine, Surgery, Midwifery, and the Diseases peculiar to Women and Children; two Courses of Midwifery of Three Months each, being reckoned equivalent to a Six Months' Course, provided different departments of Obstetric Medicine be taught in each of the Courses: General Pathology; or in Schools where there is no such Course, a Three Months' Course of Lectures on Morbid Anatomy, together with a supplemental Course of Practice of Medicine, or Clinical Medicine; Practical Anatomy, Six Months; Practical Chemistry, Three Months; Practical Midwifery, Three Months at a Midwifery Hospital, or a Certificate of attendance on six cases from a Registered Medical Practitioner; Clinical Medicine, and Clinical Surgery, during Courses of Six Months, or two Courses of Three Months, Lectures being given at least twice a-week; Medical Juris-

prudence, Botany, and Natural History, including Zoology, during Courses including not less than Fifty Lectures.

2. That he has attended, for at least two years, the Medical and Surgical practice of a general hospital which accommodates not fewer than eighty patients, and possesses a distinct staff of Physicians and Surgeons.

3. That he has been engaged, for at least three months, by apprenticeship or otherwise, in compounding and dispensing drugs at the Laboratory of an Hospital, Dispensary, Member of a Surgical College or Faculty, Licentiate of the London or Dublin Society of Apothecaries, or a Member of the Pharmaceutical Society of Great Britain.

4. That he has attended, for at least six months, by apprenticeship or otherwise, the Out-practice of an Hospital, or the Practice of a Dispensary, Physician, Surgeon, or Member of the London or Dublin Society of Apothecaries.

Sect. VII. The studies of Candidates for the Degrees of Bachelor of Medicine and Master in Surgery are subject to the following regulations:—

1. One of the four years of Medical and Surgical study, required by Section V., must be in the University of Edinburgh.

2. Another of such four years of Medical and Surgical study must be either in the University of Edinburgh, or in some other University entitled to give the Degree of Doctor of Medicine.

3. Attendance during at least six winter months on the Medical or Surgical Practice of a general hospital, which accommodates at least eighty patients, and during the same period, on a course of Practical Anatomy, may be reckoned as one of such four years, and to that extent shall be held equivalent to one year's attendance on Courses of Lectures, as above prescribed.

4. One year's attendance on the Lectures of Teachers of Medicine in the Hospital Schools of London, or in the School of the College of Surgeons in Dublin, or of such Teachers of Medicine in Edinburgh, or elsewhere, as shall from time to time be recognised by the University Court, may be reckoned as one of such four years, and to that extent shall be held as attendance on Courses of Lectures, as above prescribed.

5. Candidates may, to the extent of Four of the Departments of Medical Study required by Section VI., Sub-section 1, attend in such year or years of their Medical and Surgical studies, as may be most convenient to them, the Lectures of the Teachers of Medicine specified in the foregoing Sub-section, 4.

6. All Candidates, not Students of the University, availing themselves of the permission to attend the Lectures of Extra-Academical Teachers in Edinburgh must, at the commencement of each year of such attendance, enrol their names in a book to be kept by the University for that purpose, paying a fee of the same amount as the Matriculation Fee paid by Students of the University, and having, in respect of such payment, a right to the use of the Library of the University.

7. The fee for attendance on the Lectures of an Extra-Academical Teacher in Edinburgh, with a view to Graduation, must be of the same amount as that exigible by Medical Professors in the University.

8. No Teacher is recognised who is at the same time a Teacher of more than one of the prescribed branches of study, except in those cases where Professors in the University are at liberty to teach two branches.

9. It is not necessary for any Teacher, attendance on whose Lectures is now recognised for the purposes of Graduation in the University, to obtain a new recognition from the University Court; and attendance on the Lectures of every such Teacher will continue to be recognised as heretofore.

10. It is in the power of the University Court, if they shall see cause, at any time to withdraw or suspend the recognition of any Teacher or Teachers.

Sect. VIII. Every Candidate must deliver, before the thirty-first day of March of the year in which he proposes to graduate, to the Dean of the Faculty of Medicine,—1. A declaration, in his own handwriting, that he has completed his twenty-first year; and that he will not be, on the day of graduation, under articles of Apprenticeship to any Surgeon or other master. 2. A statement of his Studies, as well in Literature and Philosophy as in Medicine, accompanied with proper Certificates. 3. A Thesis composed by himself, to be approved by the Medical Faculty.

Sect. IX. Each Candidate is examined, both in writing and *viva voce*,—*first*, on Chemistry, Botany, and Natural History; *secondly*, on Anatomy, Institutes of Medicine, and Surgery; and, *thirdly*, on Materia Medica, Pathology, Practice of Medicine, Clinical Medicine, Clinical Surgery, Midwifery, and Medical Jurisprudence. The Examinations on Anatomy, Chemistry, Institutes of Medicine, Botany, and Natural History are conducted, as far as possible, by Demonstrations of objects placed before the Candidates; and those on Medicine and Surgery in part by Clinical Demonstrations in the Hospital.

Sect. X. Students who profess themselves ready to submit to an Examination on the First Division of these subjects at the end of their second year, may be admitted to Examination at that time.

Sect. XI. Students who have passed their Examination on the First Division of these subjects may be admitted to Examination on the Second Division at the end of their third year.

Sect. XII. The Examination on the Third Division cannot take place until the Candidate has completed his fourth *Annus Medicus*.

Sect. XIII. Candidates may, if they choose, be admitted to Examination on the first two of these Divisions at the end of their third year; or to the three Examinations at the end of their fourth year.

Digitized by Google

Sect. XIV. If any Candidate at these Examinations be found unqualified, he cannot be again admitted to Examination unless he has studied during another year two of the prescribed subjects, either in the University, or in some other School of Medicine.

Sect. XV. After the Candidate has satisfied the Medical Examiners, the Dean will lay the proceedings before the Senatus Academicus, by whose authority the Candidate will be summoned, on the 31st day of July, or, if that day be Sunday, then on the preceding day, to defend his Thesis: and, finally, if the Senate think fit, he will be admitted, on the first day of August, or, if that day be Sunday, then on the following day, to the Degree of Bachelor of Medicine, or to the Degrees of Bachelor of Medicine and of Master in Surgery.

Sect. XVI. The Senatus Academicus, on the day here appointed, will assemble at Ten o'clock A.M., for the purpose of conferring Degrees; and no Candidate, unless a sufficient reason be assigned, shall absent himself, on pain of being refused his Degree for that year.

Sect. XVII. Candidates for Graduation are required to produce evidence of their having conformed to the Regulations which were in force at the time they commenced their Medical Studies.

Sect. XVIII. The Degree of Doctor of Medicine may be conferred on any Candidate who has obtained the degree of Bachelor of Medicine, and is of the age of twenty-four years, and has been engaged, subsequently to his having received the Degree of Bachelor of Medicine, for at least two years in attendance on an Hospital, or in the Military or Naval Medical Services, or in Medical and Surgical Practice: provided always, that the degree of Doctor of Medicine shall not be conferred on any person, unless he be a Graduate in Arts of one of the Universities of England, Scotland, or Ireland, or of such other Universities as are above specified, or unless he shall, before or at the time of his obtaining the Degree of Bachelor of Medicine, or within three years thereafter, have passed a satisfactory Examination in Greek, and in Logic or Moral Philosophy, and in one at least of the following subjects, namely, French, German, Higher Mathematics, and Natural Philosophy.

Sect. XIX. The Medical Examiners for all Candidates for Graduation in Medicine are the Professors in the Faculty of Medicine, and, in addition, three persons appointed annually by the University Court.

Sect. XX. The Provisions of these Statutes came into operation on the 4th of February 1861.

Sect. XXI. Persons who began their Medical Studies before the 4th of February, 1861, are entitled to graduate under the system in force before or after that date, according as they may comply with the regulations in force in the University before or after that date.

JOHN HUTTON BALFOUR, A.M., M.D.,
*Professor of Medicine and Botany, and Dean of the Medical Faculty.*

NOTICE TO CANDIDATES FOR GRADUATION WHO COMMENCED THEIR STUDIES BEFORE 1861.

Candidates who commenced their Medical Studies by attendance on Qualifying Classes before the fourth day of February, 1861, are entitled to appear for Examination for the Degree of Doctor of Medicine, after four years' study, on completing their twenty-first year, and without having taken the Degree of Bachelor of Medicine. They are also exempted from the Preliminary Examinations mentioned in Sections II. and III., and require only to undergo an Examination on Latin. They are also exempted from attendance on Practical Chemistry, and Practical Midwifery, and require only three months of Clinical Surgery, and eighteen months of Hospital attendance.

Candidates who commenced their studies before 1825, require only one year's Hospital attendance, and are exempted from the fourth year of attendance at Classes, from the necessity of a year's study in Edinburgh (Sect. VII., 1), and from attendance on Clinical Surgery; Medical Jurisprudence; Natural History; Military Surgery; Practical Anatomy; Pathology, and Surgery distinct from Anatomy.

Those who commenced between 1825 and 1831 are exempted from attendance on General Pathology, and also on Surgery distinct from Anatomy.

Those who commenced between 1825 and 1833, are required to attend only two of the following Classes, viz.:—Clinical Surgery; Medical Jurisprudence; Natural History; Military Surgery; Practical Anatomy.

And those who commenced before 1833, are exempted from attendance on Practical Pharmacy and Dispensary Practice (Sect. VI., 3 and 4).

# ROYAL COLLEGE OF PHYSICIANS, EDINBURGH.

PRES., Dr. J. G. M. Burt. SEC., Dr. Rutherford Haldane.

The College consists of Fellows and Members, and grants Licences to practise Medicine and Midwifery.

## I. OF THE LICENCE.

1. No one can obtain the Licence of the College until he has completed the age of twenty-one years.

2. Every Applicant for the Licence must produce satisfactory evidence that he has been engaged in the study of Medicine during a period of at least four years, and that he has attended the following Courses at a University, or at some Medical School recognised by the College:—Anatomy, six months; Practical Anatomy, six months; Botany (unless taken as a branch of preliminary study), three months; Chemistry, six months; Practical Chemistry, three months; Materia Medica and Pharmacy, three months; Physiology or Institutes of Medicine, six months; Practice of Medicine, six months; Clinical Medicine, six months; Principles and Practice of Surgery, six months; Clinical Surgery, three months; Midwifery, three months; Medical Jurisprudence, three months; Pathological Anatomy, or General Pathology, three months; Practical Pharmacy, three months. The Applicant must also produce evidence of having attended the practice of a Public Hospital (containing not fewer than 80 Beds) during a period of not less than twenty-four months, twelve of which must have been spent in attendance on the Medical Wards. The Applicant must also have attended at least six cases of Labour under the superintendence of a qualified Medical Practitioner, either in a recognised Maternity Hospital, or a Dispensary where Midwifery cases are admitted, or in private practice; and must produce a Certificate to that effect from the Practitioner under whom he attended.

3. Every Applicant for the Licence must pass the Preliminary Examination in Literature and Science before being admitted to the Professional Examination; and no Student will be permitted to enter his name in the Register of the College until he has passed the Preliminary Examination.

4. Masters and Bachelors of Arts of any British or Foreign University, whose Course of Study may from time to time be approved of by the College, shall be exempted from the above Preliminary Examination; and also those who have successfully undergone Examination by the National Educational Bodies, or by any of the Licensing Boards recognised by the Medical Act, provided the Course of Education, and the subjects of Examination, be equivalent to those included under Regulation 3.

5. The Professional Examinations shall be conducted either as a whole, at the conclusion of the Course of Study, or in parts, according to the following arrangement of subjects:—(1.) Anatomy, Physiology, Chemistry. (2.) Materia Medica and Pharmacy, Pathology and Pathological Anatomy, Surgery, Practice of Medicine, Midwifery, Medical Jurisprudence. The Examinations will be conducted partly *viva voce*, partly by written papers; and, whenever practicable, will consist in part in the examination of persons suffering under disease.

6. The following will be the periods of Examination:—(1.) Preliminary Examinations in Literature and Science—On Saturday, April 28th and July 28th. (2.) First Professional Examinations—On Wednesday, January 24th, April 4th, May 2nd, July 11th, 25th, and October 24th. (3.) The Second Professional Examinations will take place immediately after the conclusion of each of the first Professional Examinations. Candidates who already possess a qualification will not be required to attend at the specified periods, but will be admitted to special Examination, provided they give due notice to the Secretary.

7. Candidates for the License of the College who already possess a qualification from a recognised Licensing Body, or who have passed the first Professional Examination before a Qualifying Body, will not be required to be re-examined on Anatomy, Physiology, and Chemistry, but will be at once admitted to the second part of the Examination.

## II. OF THE MEMBERSHIP.

1. Any Licentiate of a College of Physicians, or Graduate of a British or Irish University, with whose knowledge of Medical and General Science the College may be satisfied, may be admitted a Member of the College, provided he shall have attained the age of twenty-four years.

2. Every motion for the election of a Member shall be made at a quarterly meeting of Fellows by one of the Fellows present, and seconded by another; and this motion shall be determined by ballot at the next quarterly meeting—a majority of three-fourths being necessary to carry it in the affirmative.

3. Every Member on the Roll of Attendance, whose address has been communicated to the Clerk, shall be summoned to attend all meetings of the Fellows and Members.

## III. OF THE FELLOWSHIP.

1. No one shall be elected a Fellow of the College until he has been at least one year a Member thereof, and has attained the age of twenty-five years.

2. Every motion for the election of a Fellow shall be made at a quarterly meeting of Fellows by one of the Fellows present, and seconded by another; and this motion shall be determined by ballot at the next quarterly meeting of Fellows—a majority of three-fourths being necessary to carry it in the affirmative.

Digitized by Google

3. If an urgent reason satisfactory to the Council be assigned, a Candidate may be proposed at an extraordinary meeting of the Fellows summoned for the purpose, and his petition may be balloted for at an extraordinary meeting of the Fellows specially summoned for the purpose; provided that the holding of this special meeting be agreed to by a majority of five-sixths of the Fellows present at the meeting at which the Candidate was proposed; provided also that not less than one week intervene between the two meetings, and that due notice of the intended ballot be given in the billets summoning the second meeting. The Candidate shall in this case pay to the Treasurer a sum of Ten Guineas in addition to the ordinary Fees.

4. Every Fellow resident within five miles from the General Post-Office of Edinburgh shall, on his election, have his name placed on the Roll of Attendance, and shall pay the Annual Contribution, and be subject to all the Laws of the College regarding Fines. Fellows resident beyond five miles shall have the option of having their names on the Roll of Attendance or not; but if their names be on the Roll of Attendance, they shall pay the Annual Contribution, and be subject to Fines.

5. Any Fellow may petition that his name be taken off the Roll of Attendance, which petition shall be determined by ballot at next quarterly meeting.

6. Any Fellow whose name is not on the Roll of Attendance may have it inserted by giving notice to the Secretary, who shall report to the next quarterly meeting; after which, the Fellow shall be entitled to all the privileges of the Fellowship, and may take his seat at the first meeting of the College.

7. Any Fellow leaving Edinburgh for a length of time, and omitting to petition to have his name taken off the Roll of Attendance, or wishing the same to be continued on it during his absence, shall be charged with his Annual Contribution and Fines.

8. Fellows whose names are not on the Roll of Attendance shall not have the use of the Library and Reading-room, except in the cases specified in Laws 9 and 10.

9. Fellows whose names are not on the Roll of Attendance, on coming to reside in Edinburgh, or within five miles thereof, for a period not exceeding six months, may, with consent of the Council, be allowed the use of the Library and Reading-room.

10. Fellows not on the Roll of Attendance, who reside permanently in Edinburgh, or within five miles thereof, but are not engaged in practice, may, with the consent of the Council, be allowed the use of the Library and Reading-room on payment of the Annual Contribution.

### Of the Fees.

1. The Fee payable by a Licentiate is Ten Guineas.
2. The Fee to be paid by a Member shall be Thirty Guineas.
3. When a Licentiate shall be raised to the rank of Member, he shall pay Twenty Guineas.
4. When a Member shall be raised to the rank of Fellow, he shall pay Thirty Guineas, exclusive of Stamp-duty.*
5. All Candidates for the license Fellowship or Membership must lodge their Fees, and the amount of Stamp-duty payable at the time to Government, with the Treasurer, previously to presenting their petitions.

### Examinations for the Double Qualification of Licentiate in Medicine and Licentiate in Surgery.

The Royal College of Physicians of Edinburgh, and the Royal College of Surgeons of Edinburgh, while they still continue to give their Diplomas separately, under separate Regulations, have made arrangements by which, after one series of examinations, the student may obtain the Diplomas of both Colleges. The general principle of this Joint Examination is, that it shall be conducted by a Board, in which each body is represented, for examination in those branches which are common to both Medicine and Surgery; but that the College of Physicians shall take exclusive charge of the examination in Medicine, and the College of Surgeons of the examination in Surgery. The object of the joint-examination is to give to students facilities for obtaining from two separate bodies, and at less expense, a qualification in Medicine and a qualification in Surgery. Students passing that examination successfully, will be enabled to register two qualifications under the Medical Act, —Licentiate of the Royal College of Physicians of Edinburgh, and Licentiate of the Royal College of Surgeons of Edinburgh. The arrangement for thus conferring a double qualification by the co-operation of the two Colleges is in conformity with Section XIX. of the Medical Act, and received the special sanction of the General Council of Medical Education and Registration, at a Meeting held on the 7th August, 1859. A code of regulations to be observed by candidates for the double qualification, both as regards General and Professional Education and Examination, may be had on application at the Hall of the Royal College of Physicians, or at the Hall of the College of Surgeons, Edinburgh.

### Regulations.

*Schools of Medicine.*—1. Every candidate for a Surgical Diploma must have followed his course of study (Professional Education, 2.) in a University; or in an Established School of Medicine, as defined below; or in a Provincial School specially recognised by the College of Surgeons of that division of the United Kingdom in which it is situate.

2. Under the title Established School of Medicine are comprehended the Medical Schools of those cities of Great Britain and Ireland in which Diplomas in Surgery are granted, and such colonial and foreign schools as are similarly circumstanced in the countries in which they exist.

*Qualifications of Teachers.*—1. The following classes of persons shall be entitled to give Lectures which may be attended as part of the course of study:—1st, In the Universities of Great Britain and Ireland—the Professors of those Institutions. 2nd, In Scotland, Fellows of the Royal College of Physicians of Edinburgh, Fellows of the Royal College of Surgeons of Edinburgh, and Fellows of the Faculty of Physicians and Surgeons of Glasgow, whose Lectures have been sanctioned in each case by the College or Faculty to which the Lecturer belongs.* 3rd, In England, Fellows and Licentiates of the Royal College of Physicians of London, and Fellows and Members of the Royal College of Surgeons of England whose status as Teachers has been admitted by those Colleges respectively. 4th, In Ireland, Fellows and Licentiates of King's and Queen's College of Physicians in Ireland, and Fellows of the Royal College of Surgeons in Ireland, whose status as Teachers has been admitted by those Colleges respectively.†

2. The College will not recognise any course of lectures delivered subsequently to 1st May, 1839, by a Professor or Teacher who lectures upon more than one of the branches of instruction included in the Curriculum; nor any course delivered by a Professor or Teacher who, in addition to the said course, lectures upon a branch of instruction, medical or general, not included in the Curriculum, unless such Professor or Teacher shall have obtained special leave from the College to do so.

3. Notwithstanding the above regulations, the teaching of two branches may be undertaken by one individual in the following instances, without disqualification being incurred—viz., Anatomy and Practical Anatomy; Chemistry and Practical Chemistry; and, further, Clinical Medicine or Clinical Surgery may be taught simultaneously with any one of the other courses of education prescribed in the Curriculum, by a Physician or Surgeon qualified according to the regulations of the Colleges, and attached to a public hospital of the size which those regulations prescribe.

### Professional Education.

1. Candidates commencing professional study after October 1st, 1865, must have been engaged in professional study during four years after the Examination in General Education, which shall include not less than four Winter Sessions' or three Winter and two Summer Sessions' attendance at a recognised medical school.‡

2. The Candidate must have attended the following separate and distinct courses of lectures:—

| | | *Duration—at least* |
|---|---|---|
| Anatomy | 2 Courses § | Six months each. |
| Practical Anatomy | | Twelve months. |
| or, in the option of the Candidate— | | |
| Anatomy | 1 Course | Six months. |
| Practical Anatomy | | Eighteen months |
| Chemistry | 1 Course | Six months. |
| Practical or Analytical Chemistry | 1 Do. | Three months. |

* The College enacted, in 1846, Statutes regarding the manner of sanctioning lecturers and teachers in the Edinburgh School, which is by special examination on their several departments.

† The only lecturers excepted from this law are those on chemistry, who may be persons non-medical, if recognised by the College after examination by a joint board with the College of Physicians, in conformity with Statutes enacted in May, 1847, and printed separately.

‡ Candidates are at present admitted to examination after four Winter Sessions' or three Winter and two Summer Sessions' attendance at a recognised Medical School.

§ The two courses must not be simultaneous.

| | | *Duration—at least* |
|---|---|---|
| Materia Medica | 1 Course | Three months. |
| Physiology | Not less than 60 Lectures.* | |
| Practice of Medicine | 1 Course | Six months. |
| Clinical Medicine | . . . | Six months.† |
| Principles and Practice of Surgery | 1 Do. | Six months. |
| Clinical Surgery | 1 Do. | Six months.† |
| A third Course of Surgery, which may be either Principles and Practice of Surgery or Clinical Surgery, at the option of the Candidate | 1 Do. | Six months.† |
| Midwifery and the Diseases of Women and Children | 1 Do. | Three months. |
| Medical Jurisprudence | 1 Do. | Three months. |

Besides the above-mentioned courses of lectures, the Candidate must have attended at least **six** cases of Labour under the superintendence of a qualified Medical Practitioner, either in a recognised Maternity Hospital, or in a Dispensary where Midwifery cases are admitted, or in private practice; and must produce a certificate to that effect from the Practitioner under whom he attended. He must also have attended, for three months, a course of instruction in Practical Pharmacy, at the Laboratory of an Apothecary, or of a Member of the Pharmaceutical Society of Great Britain, or of a Chemist and Druggist recognised by the College on special application, or of a Public Hospital or Dispensary; or as Assistant to a Registered Practitioner who dispenses medicines to his own patients.

3. The Candidate must have attended, for twenty-four months, a public general hospital, containing at an average at least eighty patients; he must also have attended, for six months, the Practice of a Public Dispensary specially recognised by the College; or have been engaged for six months as visiting Assistant to a Registered Practitioner.

4. A certificate of three months' instruction in Pathological Anatomy at the post-mortem room of a recognised Hospital, will be required from Candidates commencing professional study after October 1st, 1861.

5. A Certificate of Proficiency in Vaccination, signed by a Registered Practitioner, will be required of every Candidate.‡

6. The six-months' Courses delivered in Scotland must consist of not fewer than one hundred Lectures, with the exception of Clinical Medicine and Clinical Surgery. The three-months' Courses must consist of not fewer than fifty Lectures.

7. The following order of study is recommended as a guide to the Student, though not enjoined:—

*First Year* . Anatomy,—Practical Anatomy,—Chemistry,—Practical *or* Analytical Chemistry,—Hospital.

*Second Year* . Anatomy,—Practical Anatomy,—Physiology,—Surgery,—Materia Medica, *the last either in this or the Third Year*,—Hospital.

*Third Year* . Practice of Physic,—Clinical Surgery,—Practical Anatomy,—Practical Pharmacy,—Pathological Anatomy,—Hospital.

*Fourth Year* . Surgery, *or* Clinical Surgery,—Midwifery and the Diseases of Women and Children,—Clinical Medicine,—Medical Jurisprudence,—Practical Midwifery,—Hospital.

8. It is strongly recommended to Students to avail themselves of any opportunities which they may possess of attending Lectures on Ophthalmic and Mental Diseases; also on Botany, Zoology, Comparative Anatomy, and the use of the Microscope, in addition to the Courses of Lectures which are absolutely prescribed.

*Registration.*—1. A book shall be kept in the Hall of the College for the Registration of all Medical Students who may apply. In this book all Edinburgh students who desire to possess the Diploma of the College must be registered, whether they attend professors in the University, or other qualified teachers.

2. No Student beginning professional study after September, 1865, can be registered who has not passed the complete preliminary examination in general education prescribed in chapter V., or one of the equivalent examinations, of which a list will be found in the Appendix.

3. The Registration shall be conducted by the Conservator of the Museum, or by a substitute for whom he shall be responsible. The Register shall be kept according to the Schedule which will be found in the Appendix.

---

* In those Schools of England and Ireland in which two separate courses of lectures are delivered at separate hours, one on Anatomy, the other on Anatomy and Physiology, the former of these courses will be received as a course of Anatomy, and the other as a course of Physiology.

† Two courses of Clinical Medicine of three months each, if not simultaneous, will be held equivalent to one course of six months. They must be attended during the period of attendance at the hospital where they are delivered. The same rules apply to Clinical Surgery.

‡ By a regulation of the Privy Council, of date 1st December, 1859, no one can be appointed as a Contractor for Vaccination under the English Poor-law, who does not procure a certificate of proficiency in Vaccination from a person authorised by the Privy Council to grant the same. Dr. Husband, F.R.C.S., Edinburgh, of the Royal Public Dispensary, has been appointed by the Privy Council as Certificator in Edinburgh.

4. Each Student shall pay annually, on his first registration for the year, the sum of five shillings, and shall be provided with a ticket of admission to the Museum, and a Certificate of Registration duly attested by the Registrar.

5. The Register shall be closed within fifteen days after the commencement of each Session or Term.

6. When a Student is prevented by sickness, or any other unavoidable cause, from complying with the above regulations, he shall, as soon as the case admits, present a statement of the circumstances, with proper evidence, to the Registrar, to be laid by him before the College; and if the application be sustained, the individual so applying shall be enrolled in the usual manner.

*Preliminary Examination in General Education.*—1. The subjects of the Preliminary Examination in General Education shall be as follows, viz.:—1. English—Grammar and Composition. 2. Latin. 3. Arithmetic—to Vulgar and Decimal Fractions, inclusive. 4 and 5. Any two of the following, at the option of the Candidate:—(1) Algebra. (2) Geometry—Euclid, Books I., II., and III. (3) Natural Philosophy. (4) Greek. (5) French. (6) German. (7) Botany. (8) Zoology. Candidates are requested, on giving in their names for the Examination, to mention which two of the optional subjects they have selected. The College will, from time to time, fix on books as guides for preparation for examination in the preliminary branches; and intending Candidates will be furnished with lists of these on application.

2. Testimonials of proficiency granted by certain Educational Bodies, shall be accepted as sufficient evidence of general education, and shall exempt from the preliminary examination. Of these a list will be found in the Appendix, p. 722.

3. After September, 1865, all Students who intend becoming Candidates for the Diploma of the College must have passed the complete Examination in General Education and have had their names inscribed in the Register of Medical Students instituted by the General Medical Council, before they commence their Professional Studies.

4. The Preliminary Examinations shall take place at stated periods,* and shall be conducted by the Special Board of Examiners in Arts which is chosen from time to time by the College, in conjunction with the Royal College of Physicians.

5. Candidates, the commencement of whose Professional Studies was prior to October 1st, 1861, may pass the Preliminary Examination in General Education at any of the periods previous to the First Professional Examination; but are recommended to do so at the earliest possible period. Candidates under this regulation who have not passed a Preliminary Examination in General Education, will be required to undergo that Examination on the day before the first Professional Examination, and shall pay a fee of 1*l.*

6. Students who intend to undergo the Preliminary Examination, shall give in their names, addresses, and places of birth to the officer, not later than three days before the day of examination, and shall pay a fee of ten shillings, not to be returned in case of rejection.

### PROFESSIONAL EXAMINATIONS FOR THE DIPLOMA OF THE COLLEGE.

1. Candidates for the Diploma of the College shall be subjected to two professional examinations, to be conducted at separate sittings, partly in writing and partly orally.

2. *First Examination.*—The first Examination shall embrace Anatomy, Physiology, and Chemistry; and shall take place not sooner than the end of the second Winter Session.

3. Opportunities for both Examinations will be presented six times in each year.* On each of these occasions the Candidates shall assemble to write answers to the questions proposed, and the oral examinations will be conducted on the days immediately succeeding.

4. Candidates who desire to pass the first Professional Examination must apply to the Secretary on or before the Saturday preceding the day of examination,† and must produce tickets and certificates of attendance in regard to all those Courses of Study which have reference to the subjects of that examination. They must also produce evidence of having passed the Preliminary Examination.

5. The sum of 4*l.* must be paid to the Treasurer of the College for this Examination, not later than Ten A.M. of the day preceding it. This sum will be considered as paid to account of the entire fee of 10*l.* payable for the Diploma.

6. In the case of a Candidate being unsuccessful at this Examination, 2*l.* will be returned to him, the remaining 2*l.* being retained to meet the expense of the Examination.

7. Candidates who have passed the first Professional Examination of any of the Licensing Boards recognised by the Medical Act, will be admissible to the second Professional Examination on producing certificates of the whole Course of Study, and paying the fee of £10. In conducting the examination, none of the subjects set down in § 9 will be omitted, even if some of them should have formed part of the first examination by another Board. Unsuccessful Candidates, under this regulation, will receive back £8 of the £10 paid by them.

8. Registered Medical Practitioners whose Degree or Licence in Medicine is dated prior to October 1st, 1861, are exempt from the first Professional Examination. The Examinations under this regulation may take place on the first and third Tuesdays of each month.

---

* For days of Examination see Appendix, page 721.

† Candidates at a distance are requested to send their certificates much earlier, so as to give sufficient time for the exchange of one or two explanatory letters; as much disappointment has been occasioned by the discovery of defects in their Course of Study when it was too late to rectify them by the production of documents.

Digitized by Google

9. *Second Examination.*—The second Examination shall embrace Surgery and Surgical Anatomy; also Medicine, Midwifery, Materia Medica, and Medical Jurisprudence; and shall not take place before the termination of the Winter Session of the last year of Study.

10. Applications for Examination must be made to the Secretary not later than the Saturday previous to the day of the first Examination.

11. Every Candidate must produce to the Secretary—1st, Satisfactory evidence of his having attained the age of twenty-one years; 2nd, The tickets and the Certificates of his classes; 3rd, The Certificate of his having passed the first Professional Examination; 4th, A tabular statement (for which a printed form will be furnished by the Officer) exhibiting the full amount of his professional education, and distinguishing the Classes, Hospitals, and Dispensaries attended during each session of his studies. If he have been an Apprentice he must also insert the name of his master, the date of his indenture, and the length of time for which he was bound. This statement, accurately filled up, must be attested by his signature, and will be preserved by the College as a record.

12. If the Candidate have been an Apprentice to a Fellow of the College, he must also produce his discharged indenture.

13. On the production of these documents, the Secretary will give the Candidate a letter authorising the Examiners to take him on trial.

14. The remaining fee payable to the College (being 6*l.*), together with the receipt for the fee paid for the first Professional Examination, must be lodged not later than Ten A.M. of the day preceding the Examination-day, in the hands of the Treasurer, who will certify this upon the Inspector's letter. The sum of 4*l.* will be returned to unsuccessful Candidates.

15. Unsuccessful Candidates at either the first or second Examination will be remitted to their studies for a period to be determined by the judgment of the Examiners, but not in any case less than three months.

16. Candidates, on showing sufficient reason for it, may be admitted to a Special Examination, on days other than those appointed above, on paying an extra fee of 4*l.*, which will not be returned in the event of their not being successful.

17. In order to test more effectually the practical knowledge of Candidates, recent Dissections and Anatomical specimens, Surgical Apparatus, specimens of Surgical Pathology, and articles of the Materia Medica, will be employed during the Examinations; and every Candidate will be required to write out formulæ of prescription. The examination may also consist, in part, of the actual examination of persons labouring under disease.

18. No Candidate shall be admissible to examination who has been rejected by any other Licensing Board within the three months preceding his application to be examined.

FEES.

1. For the Diploma of the College, 10*l.* 2. For a Certificate of Qualification to act as Assistant-Surgeon in the Navy, when no previous Qualification has been received from the College, 5*l.* 5*s.* 3. For a Certificate to an Assistant-Surgeon of the Royal Navy, of Qualification to act as full Surgeon, 5*l.* 5*s.*

The sums stated above include all Fees of every kind, and the Officer is prohibited from receiving any.

*Note.*—The Fee payable for the Diploma by Apprentices of those who were Fellows of the College prior to the Charter of 1861 is 5*l.*

REGULATIONS TO BE OBSERVED BY LECTURERS IN EDINBURGH.

1. Every Lecturer at this School of Medicine shall ascertain, at least twenty-five times in a six-months' course, and twelve times in a three-months' course, the actual attendance given by his pupils.

2. He shall do this by calling the name of each pupil at least once a-week, and entering in a regular roll-book the presence or absence of each individual; the Students, of course, being kept in ignorance of the particular days on which this is to be done.

3. The said roll-book shall be kept according to a form prescribed by the College; shall also be carefully preserved; and shall be at all times accessible to the Secretary and to the Treasurer of the College, on whom it shall be incumbent to examine the roll-book of each Class at least once during every Session, before the termination of the third weeks in April and July respectively.

4. On granting Certificates of attendance on their Classes, the Lecturers shall use the annexed form, filling up the blanks with words at length, and on no account employing figures:—

"*Edinburgh,*

"*I hereby certify that Mr.* ——— *attended my Course of Lectures commencing on* ——— *and terminating* ——— *; that the roll of the class was called* ——— *times during the Session; and that Mr.* ——— *was present on* ——— *of these occasions.*

"(Signed) ——— ———"

5. When a Student's Certificate of attendance bears that he has been more than five times absent in a six-months' course, or more than thrice in a three-months' course, when the roll of his class was called, the Inspector shall intimate this at the foot of that Student's letter to the Examiners, specifying the branch or branches on which the attendance was defective, in order that he may be particularly examined upon them. But if, on the other hand, a Student's Certificate of attendance bears that he has been more than eight times absent in a six-months' course, or more than four times in a three-months' course, he shall not be admitted to examination until he has attended another Course of Lectures on every such department of Study.

6. When a Student's absence has been occasioned by sickness, or any other unavoidable cause, such cause shall be stated in the Certificate of attendance granted by the Lecturer; and the President and Council of the College shall decide whether the Student shall or shall not be required to attend another course of such Lectures before presenting himself for examination.

7. The above Regulations shall be imperative on every Lecturer at this School of Medicine whose Lectures are recognised by the College; and it is hereby notified that, in the event of its being ascertained that any Lecturer evades the faithful enforcement thereof, the College will not hesitate to withdraw its recognition of his Course of Lectures.

### ABSTRACT OF THE LAWS OF THE ROYAL COLLEGE OF SURGEONS OF EDINBURGH, IN REFERENCE TO THE FELLOWSHIP.

1. No person shall be received as a Candidate for the Fellowship who is not in possession of the Diploma of the Royal College of Surgeons of Edinburgh, or of the Royal College of Surgeons of England, or of the Royal College of Surgeons of Ireland, or of the Faculty of Physicians and Surgeons of Glasgow.

2. No person shall be admitted as a Fellow who is under twenty-five years of age.

3. Every Candidate for the Fellowship (with the exception of those entitled to enter under the old constitution of the College, and with right to its Widows' Fund,*) shall lodge with the President a Petition for admission, and shall be recommended by two Fellows as proposer and seconder, of whom one at least shall be resident in Edinburgh.

4. Candidates for the Fellowship (not embraced under the exception to Law 3) shall pay 25*l.* to the College Funds, including all Fees. The money shall be payable to the Treasurer immediately after the presentation of the Petition to the College.

5. The billets calling the meeting at which the petition is to be presented shall intimate the name and surgical qualification of the Candidate, his professional appointments, if any, and the names of his proposer and seconder.

6. The petition shall be considered at a subsequent meeting, to be held not earlier than a month after the first; and, in the meantime, the petition, with the names of the proposer and seconder, shall be hung up in the library; and the billets calling the second meeting shall contain an intimation in the same form as those of the first.

7. At the meeting for considering the petition of the Candidate, the votes shall be given by ballot. Three-fourths of the votes are required to entitle the Candidate to be admitted; and the number of those voting shall not be less than twenty.

8. The Candidate shall be informed of the result of the ballot; but before taking his seat as a Fellow, he shall make a declaration to the following effect, and shall subscribe the same in the Sederunt-book:—"I hereby promise faithfully to maintain and defend all the rights, liberties, and privileges of the Royal College of Surgeons of Edinburgh, and to promote the interest thereof to the utmost of my power. I also promise faithfully to obey all the laws of the said Royal College, made and to be made."

9. Candidates who do not find it convenient to repair to Edinburgh may be permitted, by a vote of the College, to be enrolled as Fellows in absence, if they transmit letters of obligation to conform to No. 8, before taking their seats.

10. Every Fellow, on his admission, shall receive a Diploma with the seal of the College appended.

11. Every Fellow is entitled to attend the meetings of the College, and to take part in the proceedings and in the election of Office-bearers.

12. No Fellow of the College shall keep an open shop for the sale of drugs or other merchandise.

13. No Fellow of the College shall allow his name to be connected with advertisements or publications of an indelicate or immoral nature.

14. No Fellow of the College shall practise, or profess to practise, by the use of or according to any secret remedy or method of treatment; or shall allow his name to be connected with advertisements for the sale of any secret remedy, or for practice by the use of any secret remedy or method of treatment; or shall connect himself in partnership or otherwise, or continue in connexion with, any person practising by means of, or advertising, the sale of any secret remedy.

15. No Fellow shall be guilty of any deception or other immorality in the practice of his profession, or shall in any other way conduct himself inconsistently with the honour and decorum which become his position as a Fellow of the College.

*By authority of the Royal College,*
Surgeons' Hall, Edinburgh, *September* 1865. JAMES SIMSON, *Secretary.*

*Bursaries tenable by Medical Students:* The Brisbane Bursary, of 50*l.* yearly, is held for four years by a Student of Medicine, who is Master of Arts. The Walton Bursary, of 20*l.* yearly, is held by a Medical Student (a native of England being preferred) for four years. The Armagh Bursaries, three in number, amounting each to 15*l.* yearly, for three years, are open to Students of Divinity and Medicine who have taken the Degree of M.A.

*Recognition by Public Boards:* Attendance on the Lectures at the University of Glasgow qualifies for examination at all the Public Boards. Graduates in Surgery of this University are recognised by the English Poor Law Unions, and by the East India Company, on the same footing as Licentiates of the Royal College of Surgeons of England.

### STATUTES RELATIVE TO GRADUATION IN MEDICINE.

Three Degrees in Medicine are granted by this University, which are respectively designated as follows, viz.:—Bachelor of Medicine (M.B.), Master in Surgery (C.M.), and Doctor of Medicine (M.D.) These Degrees are conferred by this University according to the following Regulations:—

### I.—DEGREES OF BACHELOR OF MEDICINE AND MASTER IN SURGERY.

A.—*General Education:*—1. Candidates for these Degrees are required to pass an examination in the following branches, viz.,—English, Latin, Arithmetic, the Elements of Mathematics and the Elements of Mechanics. The proficiency of Students in these Branches is ascertained by examination, prior to the commencement of their Professional Education.

2. Candidates are also required, previous to their First Professional Examination, to pass an examination in at least *two* of the following subjects, selected by the Candidate, viz.:—Greek, French, German, Higher Mathematics, Natural Philosophy, Natural History, Logic, Moral Philosophy:—and this examination takes place, as far as possible, before the Candidate has entered upon his Medical Curriculum.

3. The Examinations in General Education are conducted by some of the Examiners in Arts (who may be Professors), together with some of the Medical Examiners.

4. A Degree in Arts (not being an honorary Degree) of any of the Universities of England, Scotland, and Ireland, or a Degree in Arts of any Colonial or Foreign University, which may for this purpose have been specially recognised by the University Court, exempts Candidates from Examination in General Education.

B.—*Professional Education*:—1. Candidates must have been engaged in Professional Study for a period of four years; the Medical Session of each year, or *Annus Medicus*, being constituted by attendance on at least two Courses of not less than one hundred Lectures each, or on one such Course and two Courses of not less than fifty Lectures each: excepting in the case of the Clinical Courses, in which it shall be sufficient that the Lectures be given twice a-week during the prescribed period.

2. Of the four years constituting the Curriculum, one at least must have been passed in the University of Glasgow, and another either in that University or in some other University entitled to give Degrees in Medicine. For the remaining years, if not passed at a recognised University, attendance during at least Six Winter Months on the Medical and Surgical Practice of a General Hospital, which accommodates at least eighty patients, with a Course of Practical Anatomy during the same period, may be reckoned one *Annus Medicus*; and another such year may be constituted by attendance for the requisite period on the Lectures of Teachers of Medicine in the Hospital-Schools of London, or in the School of the College of Surgeons of Dublin, or in such other Schools as may for the purpose be recognised by the University Court, with the consent of the Chancellor of the University. But attendance on Lectures by such Teachers is not recognised to the extent of more than four of the departments of Medical Study required for the Curriculum.

3. Candidates must produce Certificates of having studied the following departments of Medical Science, in the manner specified:—Anatomy, Chemistry, Institutes of Medicine or Physiology, Materia Medica and Pharmacy, Surgery, Practice of Medicine, Midwifery and Diseases of Women and Children;* each in a Course of not less than one hundred Lectures. Botany, Zoology, with Comparative Anatomy, Medical Jurisprudence; each in a Course of not less than fifty Lectures.

Pathological Anatomy, in a Three Months' Course of Lectures, with a supplemental Course either of Practice of Medicine or of Clinical Medicine. But a Course of General Pathology, of one hundred Lectures, will be held equivalent to the foregoing.

Clinical Surgery, Clinical Medicine; each in a Six Months' Course, or in two Three Months' Courses.

Practical Anatomy, during Six Months.

Practical Chemistry, during Three Months.

Practical Pharmacy, during Three Months; consisting in Compounding and Dispensing Drugs in the Laboratory of a Hospital or Dispensary, of a Registered Medical Practitioner, or of a Member of the Pharmaceutical Society of Great Britain.

Hospital Practice, Surgical and Medical; consisting in attendance during Two Years at a recognised General Hospital, accommodating not fewer than eighty Patients.

* Two Courses of Midwifery, of Fifty Lectures each, are reckoned equivalent to one Course of One Hundred Lectures, provided they embrace different departments of Obstetric Medicine.

Digitized by Google

Practical Midwifery; consisting in attendance during Three Months at an Obstetric Hospital, or attendance on at least six cases of Labour, certified by a Registered Medical Practitioner.

Out-Door Practice, during Six Months, at a Hospital or Dispensary, or with a Registered Medical Practitioner.

C.—*Professional Examinations:* 1. Candidates are examined on all the departments of Medical Study required in the Curriculum, in three Divisions, as follows:—*Firstly.* On Chemistry, Botany, and Elementary Anatomy; *Secondly.* On Advanced Anatomy, Zoology, with Comparative Anatomy, Physiology, and Surgery; and *Thirdly.* On Materia Medica, General Pathology, Practice of Medicine, Midwifery, Medical Jurisprudence, Clinical Surgery and Clinical Medicine.

2. The Examinations on these subjects are conducted partly in writing and partly *viva voce.* The Examinations on Anatomy, Chemistry, Physiology, Botany, Zoology, and Materia Medica, are also conducted, as far as possible, by Demonstrations of objects; and those on Surgery and Medicine, in part by Clinical Demonstrations.

3. Candidates may be admitted to examination on the First Division of subjects, at the end of the second year of their studies, upon producing Certificates of their having attended the required Courses; and those who have passed the First Examination may be examined on the Second Division of subjects, at the end of their third year of study. The Examination on the Third Division of subjects cannot take place until the Candidates have completed their Course of Study, and have passed the Examination on the First Two Divisions.

4. Candidates may be admitted to the first two of these Examinations at the end of their Third year of Study; or to the Three Examinations at one term after the completion of their Studies; but they are strongly recommended to take the First and Second Examinations at an earlier period, as suggested in the foregoing Regulation.

5. If any Candidate shall, on examination, be found unqualified, he cannot be again admitted to Examination until he shall have completed another year of study, or such portion of another year as may be prescribed by the Examiners.

6. The Medical Examiners are the Professors in the Faculty of Medicine of the University (including the Professor of Natural History), and the Assessors appointed annually for the purpose by the University Court.

7. Each Candidate is required, previous to the final examination, to produce an Inaugural Dissertation, composed by himself, on a subject in Medicine, or one of the allied Sciences, for the approval of the Senatus Academicus.

D.—*Age of Candidates:* Every Candidate for the Degree of Bachelor of Medicine must produce a Certificate that, on the day of Graduation, he will have attained the age of twenty-one years.

E.—*Degree of Master in Surgery:* This Degree is conferred only on Candidates who obtain at the same time the Degree of Bachelor of Medicine, or have been previously in possession of that Degree.

## II.—DEGREE OF DOCTOR OF MEDICINE.

Candidates for the Degree of Doctor of Medicine must produce evidence to the following effect:—

*First,* Of having completed the age of twenty-four years.

*Second,* Of having obtained the Degree of Bachelor of Medicine.

*Third,* Of possessing a Degree in Arts in accordance with Regulation 4, page 710, or of having, either before or at the time of obtaining the Bachelor's Degree, or within three years thereafter, passed an examination in Greek, in Logic or Moral Philosophy, and in one at least of the following subjects, which the Candidate is at liberty to select, viz.:—French, German, Higher Mathematics, Natural Philosophy and Natural History.

*Fourth,* Of having been engaged, after obtaining the Degree of Bachelor of Medicine, for at least Two Years in attendance on a Hospital, or in the Military or Naval Medical Service, or in Medical and Surgical Practice.

## III.—GENERAL REGULATIONS.

1. The annual term for conferring Medical and Surgical Degrees is the first lawful day of August.

2. The Professional Examinations are held in the Months of April and July. Before being admitted to examination, every Candidate must, at such period of the year as may be fixed by the Senate of the University, lodge with the Registrar a Statement* of his Studies, General and Professional, together with the proper Certificates, including, when necessary, that of age, his Inaugural Dissertation, or other Documents, and the Fees.

3. The Examinations in General Education are held in the end of October and beginning of April.

4. The Fees for the foregoing Degrees are as follows, viz.:—

| | |
|---|---|
| For the Degree of M.B. . . . . | £15 15 0 |
| For the Degree of C.M. (in addition to the fees for M.B.) . . . . | 5 5 0 |
| For the Degree of M.D. (in addition to the fees for M.B.), £5 5s., and Government Stamp for Diploma, £10 3s. . . . . | 15 8 0 |

5. The foregoing Statutes apply to all Candidates who commenced their Medical Studies on or after the 1st October, 1861. Candidates who began their Medical Studies before that date, are entitled to obtain their Degrees according to the Regulations existing at the time when they commenced their Studies.

* This Statement is to be drawn out upon a printed Schedule, which the Candidates will obtain from the Registrar.

## PRELIMINARY EXAMINATION IN GENERAL EDUCATION.

Preliminary Examinations in General Education are conducted by the Faculty, and Certificates granted which qualify for Registation as Medical Students, in accordance with the Regulations of the General Medical Council. Candidates for the Diploma of the Faculty must produce a Certificate of having passed this or an equivalent examination before being admitted to the Professional Examinations.

The Examination will embrace the following subjects:—1. English—Composition, and Writing to Dictation; 2. Latin; 3. Arithmetic—To Vulgar and Decimal Fractions, inclusive; 4 and 5. Any two of the following, at the option of the Candidate:—(1) Algebra. (2) Geometry—Euclid, Books I. II. and III. (3) Natural Philosophy. (4) Greek. (5) French. (6) German. (7) Botany. (8) Zoology.

The Examination will be conducted chiefly by means of Written Papers. Those Gentlemen who pass will receive Certificates. Those who are unsuccessful may appear again without paying a second Fee.

The Fee for the Examination and Certificate is Ten Shillings.

Candidates are requested, on giving in their names, to give intimation of the optional subjects they select.

The Faculty will from time to time fix on Books as guides for Preparation for Examination in the Preliminary Branches; and intending Candidates will be furnished with lists of these on application to the Secretary.

---

* Candidates continue to be admitted for Examination on completing the Curriculum required at the time of their commencing Professional Study.

Digitized by Google

Testimonials of proficiency granted after Examination by the Educational Bodies specified in the Recommendations of the General Medical Council will be accepted as sufficient evidence of General Education, and will exempt from further examination.

No Student can be registered till he has passed the Preliminary Examination.

### PROFESSIONAL EXAMINATIONS.

The Professional Examinations for the Diploma of the Faculty are two in number.

The First embraces Anatomy, Chemistry, and Physiology. Before being admitted to this Examination, the Student must have completed his Second Winter Session of Study, and must produce evidence of having given the required attendance on the first five branches of the Curriculum.

The second embraces the whole remaining subjects of study, and cannot be undergone before the termination of the full period of study. Candidates about to appear for this Examination will receive, on application to the Secretary of the Faculty, a printed form, which must be filled up so as to show their whole course of study. This, together with the Certificates regarding Lectures and Hospital attendance; also Certificates of having attained twenty-one years of age; of moral character; and of having passed the first Professional Examination, must be delivered to the Secretary at least one clear day before the day of Examination.

First Professional Examinations take place on the First Tuesday of February, April, June, August, October, and December.

Second Professional Examinations take place on the second Tuesday of each month.

The Fee for the Diploma is 10*l*., payable thus :—4*l*. to the Secretary on entering for the First Examination, and 6*l*. on entering for the Second Examination.

The Examinations are conducted partly in writing and partly orally. Recent Dissections, Anatomical Specimens, Chemical Tests, Articles of the Materia Medica, the Microscope, Surgical Apparatus and Pathological Specimens are employed at the discretion of the Examiners. Candidates may also be called upon to examine actual cases of disease.

Candidates who, from any circumstance, have been prevented from passing the First Examination previously, may, on their completion of the full Curriculum, be admitted to the Examinations on the whole Course of Study.

Candidate for the Diploma of the Faculty who may have been in practice under another qualification, or who have passed the First Examination before any of the Licensing bodies enumerated in Schedule (A) of the Medical Act, 1858, on complying with the regulations in other respects, are exempted from the First Professional Examination.

Opportunities for the Examination of these classes of Candidates for the Diploma are afforded on the second Tuesday of each month.

Unsuccessful Candidates are remitted to their studies for a period determined by the judgment of the Examiners; but not in any case for less than three months. In every such case 2*l*. of the Fee is retained, and the remainder is returned.

A Candidate, on showing a sufficient reason, may be admitted to Examination on a day specially arranged, on paying an extra Fee of 2*l*., which will be forfeited, in addition to the 2*l*. ordinarily retained, in the event of his being remitted to his studies.

The Faculty of Physicians and Surgeons of Glasgow, and the Royal College of Physicians of Edinburgh conjointly, grant their Diplomas after one Series of Examinations before a Board of Examiners in which each body is represented. The Regulations as to the Curriculum of Study are similar to those for the separate Diploma of the Faculty of Physicians and Surgeons, with the addition of a Three Months' Course of Botany, and a Second Six Months' Course of Practice of Medicine. The Fee for the two Diplomas granted conjointly is 16*l*.

For information regarding the Double Qualification, see separate Regulations.

### THE FELLOWSHIP.

The Faculty embraces in its Fellowship both Physicians and Surgeons; and Candidates for admission may apply in either capacity, according to their qualifications. The proposal of a Candidate requires to be made at an ordinary meeting by two Fellows; but no proposal is received till the Candidate has by letter intimated to the President the Medical or Surgical Qualification (as the case may be) on which he desires admission. The Fee to be paid by a Fellow is 50*l*.: from this sum a Licentiate of the Faculty shall be entitled to a deduction of whatever amount he may have paid for his Diploma. In case of a Non-resident, in consideration of his inability to participate in all the privileges of the Fellowship, the Fee is 25*l*., subject to the condition that the full Fee shall be payable should he at any subsequent time come to reside within five miles of the Faculty Hall.

REGULATIONS FOR GRANTING MEDICAL DEGREES:

Framed in conformity with an Ordinance of the Universities (Scotland) Commissioners, dated March 16, 1861, and approved by Her Majesty in Council.

I. The following are the Degrees in Medicine granted by this University,—namely, Bachelor of Medicine (M.B.), Master in Surgery (C.M.), and Doctor of Medicine (M.D.)

DEGREES OF M.B. AND C.M.

*Preliminary Examinations.*—II. The preliminary branches of extra-professional education shall be English, Latin, Arithmetic, the Elements of Mathematics, and the Elements of Mechanics;* and the proficiency of Students in these branches shall, as far as possible, be ascertained prior to the commencement of their medical studies.

III. No Candidate shall be admitted to a Professional Examination who has not passed a satisfactory Examination on at least two of the following subjects, in addition to the subjects mentioned above:—Greek, French, German, Higher Mathematics, Natural Philosophy, Natural History, Logic, Moral Philosophy; and the Examination on these subjects also shall, as far as possible, take place before the Candidate has entered on his Medical Curriculum.

IV. A Degree in Arts of any of the Universities of the United Kingdom, or of any other University specially recognised by the University Court, shall exempt Candidates from all Extra-Professional Examination.

PROFESSIONAL CURRICULUM.

V. No one shall be admitted to the Degrees of Bachelor of Medicine and of Master in Surgery who has not been engaged in Medical and Surgical study for four years,—the Medical Session of each year, or *Annus Medicus*, being constituted by Two Courses of not less than One Hundred Lectures each, or by one such Course, and Two Courses of not less than Fifty Lectures each.

VI. Every Candidate for the Degrees of Bachelor of Medicine and of Master in Surgery shall give sufficient evidence by Certificates—

1. That he has studied each of the following Departments of Medical Science,—namely, Anatomy, Chemistry, Materia Medica and Pharmacy, Institutes of Medicine, or Physiology, Practice of Medicine, Surgery, Midwifery, and the Diseases peculiar to Women and Children,† during Courses, including not less than One Hundred Lectures; Practical Anatomy, Six Months; Practical Chemistry, Three Months; Practical Midwifery—Three months at a Midwifery Hospital or a Certificate of Attendance on Six Cases from a Registered Medical Practitioner; Clinical Medicine, Clinical Surgery, during Courses of Six Months, or Two Courses of Three Months, the Lectures being given at least Twice a-week; Medical Jurisprudence, Botany, Zoology, with Comparative Anatomy, during Courses, including not less than Fifty Lectures.

---

* Particulars as to the Subjects of Examination, Books to be used, &c., may be had on application to the Dean of the Medical Faculty.

† Two Courses of Midwifery, of Three Months each, will be reckoned equivalent to a Six Months' Course, provided different departments of Obstetric Medicine be taught in each of the Courses.

2. That he has attended for at least two years the Medical and Surgical Practice of a General Hospital, either at Aberdeen or elsewhere, which accommodates not fewer than eighty patients, and possesses a distinct Staff of Physicians and Surgeons.

3. That he has been engaged for at least three months, by Apprenticeship or otherwise, in compounding and dispensing Drugs at the Laboratory of an Hospital, Dispensary, Member of a Surgical College or Faculty, of a Licentiate of the London or Dublin Society of Apothecaries, or of a Member of the Pharmaceutical Society of Great Britain.

4. That he has attended for at least six months, by Apprenticeship or otherwise, the out-practice of an Hospital, or the practice of a Dispensary, or of a Registered Medical Practitioner.

VII. The studies of Candidates for the Degrees of Bachelor of Medicine and Master in Surgery shall be subject to the following regulations:—

1. One at least of the four years of Medical and Surgical study must be in this University.

2. Another of such four years must be either in this University, or in some other University entitled to give the Degree of Doctor of Medicine.

3. Attendance, during at least six winter months, on the Medical or Surgical practice of a General Hospital which accommodates at least eighty patients—and, during the same period, on a Course of Practical Anatomy—will be reckoned as one of such four years; and to that extent it will be held as equivalent to one year's attendance on Courses of Lectures, as hereinbefore prescribed.

4. One year's attendance on the Lectures of Teachers of Medicine in the Hospital Schools of London, or in the School of the Royal College of Surgeons of Ireland, will be reckoned as one of such four years; and to that extent it will be held as attendance on Courses of Lectures, as hereinbefore prescribed.

5. If the University Court, with the consent of the Chancellor, shall, at any time, by regulation to that effect, recognise, for the purpose of Graduation in this University, the Lectures of any private Teacher or Teachers of Medicine, then and in that case attendance on such Lectures will be reckoned in place of the year's attendance under Sub-section 4, or as part thereof, as the case may be.

6. Candidates may, to the extent of four of the departments of Medical study above required, attend in such year or years of their Medical and Surgical studies, as may be most convenient to them, the Lectures of the Teachers of Medicine specified in Sub-sections 4 and 5.

7. In the event of the Lectures of any private Teachers of Medicine being recognised in terms of Sub-section 5, all Candidates availing themselves of the permission to attend the Lectures of such Teachers, and not being, at the time, Matriculated Students of the University, must, at the commencement of the year of such attendance, enrol their names in a book which will be kept by the University for the purpose,—paying a fee of one-half the amount of the Matriculation Fee paid by Students of the University; but they shall not be thereby entitled to any of the privileges of a Matriculated Student of the University.

8. The Fee for attendance on the Lectures of any private Teacher, with a view to Graduation, shall not be of less amount than that exigible by Medical Professors of the University for the same course of instruction.

9. No attendance on Lectures will be reckoned if the Teacher give instruction in more than one of the prescribed branches of study, except in those cases where Professors of the University are at liberty to teach more than one branch.

10. It shall not be necessary for any private Teacher, attendance on whose Lectures is now recognised for the purpose of Graduation in the University, to obtain a new recognition from the University Court.

11. It shall be in the power of the University Court, if it shall see cause, at any time to withdraw or suspend the recognition of any private Teacher or Teachers.

VIII. Every Candidate for the Degrees of Bachelor of Medicine and Master in Surgery shall, at such Examination Term in which he proposes to graduate, lodge with the Dean of the Faculty of Medicine—

1. A declaration, in his own handwriting, that, on the day of Graduation, he will have completed his twenty-first year, and will not be under articles of Apprenticeship;

2. A statement of his studies, as well in Literature and Philosophy as in Medicine, accompanied with proper Certificates;

3. An Inaugural Dissertation, composed by himself, to be approved by the Senatus Academicus.

PROFESSIONAL EXAMINATIONS.

These will be held twice in each year, namely, in April and July, directly after the close of the Winter and Summer Sessions.

IX. Every Candidate for the Degrees of Bachelor of Medicine and Master in Surgery shall undergo *Three* Professional Examinations, which will be conducted both in writing and *viva voce*, as follows:—

The *First* Examination (not to be taken before the end of the Second Year of study) to include Chemistry, Botany, Elementary Anatomy, and Materia Medica.

The *Second* Examination (not to be taken before the end of the Third Year) to include Advanced Anatomy, Zoology with Comparative Anatomy, Physiology, and Surgery.

The *Third* Examination (not to be taken before the end of the Fourth Year) to include Practice of Medicine and General Pathology, Clinical Medicine, Clinical Surgery, Midwifery, and Medical Jurisprudence.

Digitized by Google

1.—The Examinations in Anatomy, Chemistry, Physiology, Botany, Zoology, and Materia Medica will be conducted, as far as possible, by Demonstrations of Objects exhibited to the Candidates; and those on Medicine and Surgery, in part, by Clinical Demonstrations.

2.—Candidates may be admitted to Examination on the first two of these divisions, at the end of their Third Year; or to the three Examinations at the end of their Fourth Year.

3.—If any Candidate, on Examination, be found unqualified, he shall not be again admitted to examination, unless he shall have completed another year of Medical study, or such portion of another year as may be prescribed by the Examiners, when he is found unqualified.

X.—The Medical Examiners for Graduation in Medicine are the Professors in the Faculty of Medicine, and, in addition, three persons appointed annually by the University Court.

XI.—The Degree of Master in Surgery shall not be conferred on any person who does not, at the same time, obtain the Degree of Bachelor of Medicine.

DEGREE OF M.D.

XII.—The Degree of Doctor of Medicine may be conferred on any Candidate who has obtained the Degree of Bachelor of Medicine, and is of the age of twenty-four years, and has been engaged, subsequently to his having received the Degree of M.B. for two years, in attendance on an Hospital, or in the Military or Naval Medical Service, or in Medical or Surgical practice: Provided always that the Degree of Doctor of Medicine shall not be conferred on any person, unless he be a Graduate in Arts, or unless he shall, before or at the time of his obtaining the Degree of Bachelor of Medicine, or within three years thereafter, have passed a satisfactory Examination in Greek, and in Logic or Moral Philosophy, and in one at least of the following subjects, namely, French, German, Higher Mathematics, Natural Philosophy, and Natural History.

EXEMPTION FROM THE FOREGOING REGULATIONS.

XIII.—Candidates who began their Medical studies before the first Tuesday of November, 1861, are entitled to graduate under the Regulations applicable to Medical Students in force before that date.

FEES FOR GRADUATION.

XIV.—1. Each Candidate for the Degree of M.B. shall pay a Fee of Five Guineas in respect of each of the three Professional Examinations; each such Fee of Five Guineas being payable at the time at which the Candidate comes forward to be examined in that Division in respect of which it is payable.

2.—If the Candidate desires to be admitted to the Degree of Bachelor of Medicine only, he shall not, on admission thereto, be required to pay any further Fee in addition to the Fifteen Guineas so paid by him: but if he desires to be admitted to the Degree of Master in Surgery also, he shall, on being admitted to such Degree, pay a further Fee of Five Guineas.

3.—And every Candidate for the Degree of Doctor of Medicine shall pay, in addition to the Fee paid by him for the Degree of Bachelor of Medicine, a Fee of Five Guineas, exclusive of any stamp duty which may for the time be exigible.

GRADUATION OATH.

XV.—Every Candidate for a Degree in Medicine will, on being admitted thereto, have administered to him, and shall take, the following Oath:—

"Ego, A—— B——, coram Omniscio et Omnipotenti Deo, Religionem Christianam, quousque in Sancto Dei Verbo palam proponitur, publice profiteor: Insuper Almæ Matri Academiæ, cui ingenii culturam atque hos honores academicos debeo, me benevolentiam quam potero liberaliter relaturum sancte promitto. Ita me Deus adjuvet."

REGULATIONS REGARDING MEDICAL DEGREES, 1864.

I. The Degree of Doctor of Medicine may be conferred by the University of *St. Andrews* on any registered Medical Practitioner above the Age of Forty Years, whose professional Position and Experience are such as, in the Estimation of the University, to entitle him to that Degree, and who shall, on Examination, satisfy the Medical Examiners of the Sufficiency of his Professional Knowledge: provided always, that Degrees shall not be conferred under this Section to a greater number than Ten in any One Year.

II. Any Person presenting himself as a Candidate for the Degree of Doctor of Medicine under the first section, without having previously obtained the Degree of Bachelor of Medicine, shall, on so presenting himself, pay a Fee of Fifty Guineas, inclusive of the Stamp Duty.

Digitized by Google

III. The Degrees in Medicine to be hereafter granted by the University of *St. Andrews* shall be divided into Three Classes, and be designated respectively Bachelor of Medicine (M.B.), Master in Surgery (C.M.), and Doctor of Medicine (M.D.)

IV. The preliminary Branches of extra-professional Education in the case of candidates for the Degrees of Bachelor of Medicine and Master in Surgery, shall be English, Latin, Arithmetic, the Elements of Mathematics, and the Elements of Mechanics; and the Proficiency of Students in these Branches shall, as far as possible, be ascertained by Examination prior to the Commencement of their Medical Study.

V. No Candidate shall be admitted to a professional Examination for either of the last-mentioned Degrees, who has not passed a satisfactory Examination on at least Two of the following Subjects, in addition to the Subjects mentioned above:—Greek, French, German, Higher Mathematics, Natural Philosophy, Natural History, Logic, Moral Philosophy; and the Examination on these Subjects also shall, as far as possible, take Place before the Candidate has entered on his Medical Curriculum. (Further details regarding this Examination may be obtained on application to Dr. Day, Professor of Medicine.)

VI. A Degree in Arts (not being an honorary Degree) of any of the Universities of *Scotland* or of *England* or *Ireland*, and also a Degree in Arts of any Colonial or Foreign University, which may for this purpose have been specially recognised by the University Court, shall exempt Candidates from all preliminary Examination.

VII. No one shall be admitted to the Degree of Bachelor of Medicine or Master in Surgery, who has not been engaged in Medical and Surgical Study for Four Years—the Medical Session of each Year, or *Annus Medicus*, being constituted by at least Two Courses of not less than One Hundred Lectures each, or by One Such Course and Two Courses of not less than Fifty Lectures each; but, in the case of the Clinical Courses, it shall be sufficient that the Lectures be given at least Twice a Week during the prescribed Periods.

VIII. Every Candidate for the Degrees of Bachelor of Medicine and Master in Surgery shall give sufficient Evidence by Certificates:—

(1) That he has studied each of the following Departments of Medical Science, viz.:—Anatomy, Chemistry, Materia Medica and Pharmacy, Institutes of Medicine, or Physiology, Practice of Medicine, Surgery, Midwifery, and the Diseases peculiar to Women and Children; Two Courses of Midwifery, of Three Months each, being reckoned equivalent to a Six Months' Course, provided different Departments of Obstetric Medicine be taught in each of the Courses, General Pathology, or, in Schools where there is no such Course, a Three Months' Course of Lectures on Morbid Anatomy, together with a supplemental Course of Practice of Medicine, or Clinical Medicine; During Courses including not less than One Hundred Lectures.—Practical Anatomy, Six Months.—Practical Chemistry, Three Months.—Practical Midwifery, Three Months at a Midwifery Hospital, or a Certificate of Attendance on Six Cases from a Registered Medical Practitioner.—Clinical Medicine, Clinical Surgery, During Courses of Six Months, or Two Courses of Three Months; Lectures being given at least Twice a Week.—Medical Jurisprudence, Botany, Zoology, with Comparative Anatomy, During Courses including not less than Fifty Lectures.

(2) That he has attended for at least Two Years the Medical and Surgical Practice of a General Hospital, which accommodates not fewer than Eighty Patients, and possesses a distinct Staff of Physicians and Surgeons.

(3) That he has been engaged for at least Three Months, by Apprenticeship, or otherwise, in compounding and dispensing Drugs at the Laboratory of an Hospital, Dispensary, Member of a Surgical College or Faculty, of a Licentiate of the *London* or *Dublin* Society of Apothecaries, or of a Member of the Pharmaceutical Society of *Great Britain*.

(4) That he has attended for at least Six Months, by Apprenticeship or otherwise, the Out-practice of an Hospital, or the Practice of a Dispensary, or of a Physician, Surgeon, or Member of the *London* or *Dublin* Society of Apothecaries.

IX. No one shall be received as a Candidate for the Degree of Bachelor of Medicine or Master in Surgery, unless Two Years at least of his Four years of Medical and Surgical Study, as above defined, shall have been in One or more of the following Universities and Colleges, viz.:—The University of *St. Andrews*; the University of *Glasgow*; the University of *Aberdeen*; the University of *Edinburgh*; the University of *Oxford*; the University of *Cambridge*; *Trinity College, Dublin*; *Queen's College, Belfast*; *Queen's College, Cork*; and *Queen's College, Galway*.

X. Subject always to the Condition specified in the Ninth Section, the studies of Candidates for the Degrees of Bachelor of Medicine and Master in Surgery shall be under the following Regulations:—

(1) The remaining Years of Medical and Surgical Study, other than those for which Provision is made by the Ninth Section, may be either in One or more of the Universities and Colleges above specified, or in the Hospital Schools of *London*, or in the School of the College of Surgeons in *Dublin*, or under such private Teachers of Medicine, as may from Time to Time receive Recognition from the University Court:

(2) Attendance during at least Six Winter Months on the Medical or Surgical Practice of a General Hospital which accommodates at least Eighty Patients, and during the same Period on a course of Practical Anatomy, may be reckoned as One of such remaining Years; and to that extent shall be held equivalent to One Year's attendance on Courses of Lectures, as prescribed in the Seventh Section:

(3) Attendance on the Lectures of any private Teacher in *Edinburgh*, *Glasgow*, or *Aberdeen*, shall not be reckoned for Graduation in *St. Andrews*, if the Fee for such Lectures be of less Amount than is charged for the like Course of Lectures in the University of *Edinburgh*, of

Digitized by Google

*Glasgow*, or of *Aberdeen*, according as the Teacher lectures in *Edinburgh*, *Glasgow*, or *Aberdeen*.

XI. Every Candidate for the Degrees of Bachelor of Medicine and Master in Surgery shall, at such period of the Year in which he proposes to graduate, as may be fixed for the Purpose by the Senatus Academicus, lodge with the Senatus,—

(1) A Declaration, in his own Handwriting, that, on the Day of Graduation, he will have completed his Twenty-first Year, and will not be under Articles of Apprenticeship:

(2) A Statement of his Studies, as well in Literature and Philosophy as in Medicine, accompanied with proper certificates:

(3) An inaugural Dissertation, composed by himself, to be approved by the Senatus Academicus.

(Information regarding the Period of the Year in which the Examinations will be held, may be obtained by application to Dr. O. H. Bell.)

XII. Every Candidate for the Degrees of Bachelor of Medicine and Master in Surgery, shall be examined both in Writing and *viva voce*,—*First*, on Chemistry, Botany, Elementary Anatomy, and Materia Medica: *Secondly*, on Advanced Anatomy, Zoology with Comparative Anatomy, Physiology, and Surgery; and *Thirdly*, on Practice of Medicine, Clinical Medicine, Clinical Surgery, Midwifery, General Pathology, and Medical Jurisprudence.

XIII. Students, who profess themselves ready to submit to an examination on the First Division of these Subjects at the End of the Second Year of their Course, may be admitted to Examination at that Time.

XIV. Students, who have passed their Examination on the First Division of these Subjects, may be admitted to Examination on the Second Division at the End of the Third Year of their Course.

XV. The Examination on the Third Division shall not take place until the Candidate has completed the Fourth Year of his Course.

XVI. Candidates may be admitted to examination on the first Two of these Divisions at the End of their Third Year; or to the Three Examinations at the end of their Fourth Year.

XVII. If any Candidate, on Examination, be found unqualified, he shall not be again admitted to Examination, unless he shall have completed another Year of Medical Study, or such Portion of another Year as may be prescribed by the Examiners when he is found unqualified.

XVIII. The Degree of Master in Surgery shall not be conferred on any Person who does not at the same Time obtain the Degree of Bachelor of Medicine.

XIX. The Degree of Doctor of Medicine may be conferred on any Candidate who has obtained the Degree of Bachelor of Medicine, and is of the Age of Twenty-four Years, and has been engaged, subsequently to his having obtained the Degree of Bachelor of Medicine, for at least Two Years in Attendance on an Hospital, or in the Military or Naval Medical Service, or in Medical and Surgical Practice: provided always that, subject to the Provisions of the First Section, the Degree of Doctor of Medicine shall not be conferred on any Person unless he be a Graduate in Arts, or unless he shall, before, or at the Time of his obtaining the Degree of Bachelor of Medicine, or within Three Years thereafter, have passed a satisfactory Examination in Greek, and in Logic or Moral Philosophy, and in One, at least, of the following Subjects, namely, French, German, Higher Mathematics, Natural Philosophy, and Natural History.

XX. Except under the Provisions of the First Section, the Degree of Doctor of Medicine shall not be conferred on any Person who has not previously obtained the Degree of Bachelor of Medicine.

XXI. There shall be paid by each Candidate for the Degree of Bachelor of Medicine, a Fee of Five Guineas in respect of each of the Three Divisions of the Examination on Professional Subjects specified in the Eleventh Section of this Ordinance; each such Fee of Five Guineas being payable at the Time at which the Candidate comes forward to be examined in that Division in respect of which it is payable; and, if the Candidate desires to be admitted to the Degree of Bachelor of Medicine only, he shall not, on Admission thereto, be required to pay any farther Fee in addition to the Fifteen Guineas so paid by him; but, if he desires to be admitted to the Degree of Master in Surgery also, he shall, on being admitted to such Degree, pay a further Fee of Five Guineas: and every Candidate for the Degree of Doctor of Medicine, who has previously obtained the Degree of Bachelor of Medicine, shall pay, in addition to the Fees paid by him as a Candidate for the Degree of Bachelor of Medicine, a Fee of Five Guineas, exclusive of any Stamp Duty which may for the time be exigible.

XXII. The Medical Examination in 1866 will be held in the last week of April.

N.B. Full details regarding the Class-Books recommended for the Preliminary Examination, &c., may be obtained from Dr. Bell, Professor of Medicine.

V.—LICENTIATE IN SURGERY.

*Qualification in Arts.*—The Licentiate in Surgery must have kept one year in Arts.

*Qualification in Surgery.*—Same as for the Degree of Master in Surgery,—viz., attendance on the prescribed Courses of instruction, and the passing of a similar public Examination.

The Licences in Medicine and Surgery of the University of Dublin are recognised by the Boards of Examiners of the Navy, Army, and East Indian Army, and entitle the holder to register under the provisions of the Medical Act of 1858.

PRIVILEGES OF MATRICULATED MEDICAL STUDENTS.

The Medical Library at Sir Patrick Dunn's Hospital is open on Tuesdays and Fridays, at two o'clock, for the delivery of books to Students, conformably with the regulations of the College of Physicians.

The College Herbarium is open to the public on Wednesdays and Fridays during Term, from 11 to 2 o'clock. Any person desirous of verifying specimens may obtain admission on Tuesdays and Thursdays, during the same hours, by giving notice to the Curator.

The Botanic Gardens of the University are also open to Matriculated Students.

Medical Students, being Junior or Senior Sophisters on the College Books, and in attendance on two of the winter courses of Medical Lectures, are exempted from the Classics of the Junior Sophister year, and from one of the three optional Courses (Mathematical Physics, Experimental Physics, or Classics) of the Senior Sophister year. To obtain this privilege it is necessary that the Student be matriculated in Medicine, and that the proper certificates of his attendance on Medical Lectures be submitted to the Senior Lecturer.

Students in Arts who are also matriculated in Medicine, having their names on the College Books, will be permitted to attend one Course free of expense, with each of the University Professors.

No Testimonium, or Certificate of Attendance, will be issued to such Students until after they have proceeded to their first degree of Medicine. On their application for the *Liceat ad Examinandum*, the Professors will transmit, direct to the Medical Registrar, the names of those Students who have qualified themselves. Should the Student who has had the privilege of free attendance desire to obtain an official Testimonium, before proceeding to his Medical degree, he must, on obtaining it, pay to the Professor the usual fee.

By the Act 40 Geo. III., c. 84, the several Lecturers and Professors of the School of Physic are bound during each Medical Session to return to the Senior Lecturer the names of such Students as have attended their Lectures.

The total expense of obtaining the degrees of Bachelor in Medicine and Master in Surgery is 108*l.* 4*s.*

The Candidates for the Medical and Surgical Licences of the University of Dublin are subject to the College discipline during their Course in Arts.

The Second Period comprises attendance on Anatomy and Physiology, Practical Anatomy, Theory and Practice of Surgery, Widwifery and Diseases of Women and Children, Theory and Practice of Medicine, Medical Jurisprudence. At least three of the above courses of lectures must be attended in some one of the Queen's Colleges; the remainder may be taken at the option of the Candidate, in any University, College, or School recognised by the Senate of the Queen's University.

Candidates are required before graduating to have also attended, in one of the Colleges of the Queen's University, Lectures on Natural Philosophy and on one Modern Language, and to have passed the Matriculation Examination. They are further to attend during the First Period, Practical Chemistry in a recognised Laboratory, and the practice during six months of a recognised Medico-Chirurgical Hospital containing at least sixty beds, together with Clinical Lectures delivered therein; and during the Second Period, three months' Practical Midwifery in a recognised Hospital, with not less than thirty beds, or six months' Practical Midwifery in a recognised Hospital with fifteen beds; and eighteen months' practice of a recognised Medico-Chirurgical Hospital, containing at least sixty beds, and in which Clinical Instruction is delivered.

There are two University Examinations; one comprising the subjects of study in the First Period, the other the subjects of the Second Period. It is competent to candidates to undergo the first of these examinations at any time after the close of the First Period. The University Examinations are held twice in each year, in June and September.

Further information will be found in the "Queen's University Calendar," or may be obtained by application to the Secretary, Queen's University, Dublin Castle.

THE COLLEGE OF PHYSICIANS IN DUBLIN was founded in 1660 by Dr. JOHN STEARNE, Fellow and Professor of Physic in Trinity College, Dublin; was incorporated by Royal Charter of KING CHARLES II. A.D. 1667; and re-incorporated by their Majesties KING WILLIAM and QUEEN MARY, A.D. 1692, under the title of "THE KING AND QUEEN'S COLLEGE OF PHYSICIANS IN IRELAND."

The Charter of WILLIAM and MARY, and the Act of the Irish Parliament, 1 Geo. III., cap. xiv. made perpetual by the Act 30 Geo. III., cap. xiv., § 11, confer on the Fellows and Licentiates of the King and Queen's College of Physicians the title of Doctors of Physic.

## REGULATIONS RESPECTING THE EDUCATION, EXAMINATION, AND ADMISSION OF CANDIDATES FOR THE LICENTIATESHIP AND DOCTORATE IN MEDICINE.

Candidates for the Licentiateship and Doctorate in Medicine are required to make application to the College for permission to be examined according to the form supplied by the Registrar.

Candidates are required to deposit with the Registrar a Certificate of having lodged the Admission Fee in the Bank of Ireland, to the credit of the College Fund.

Candidates are required to give proof of their having attained the age of twenty-one years, of having been engaged during a period of four years in the study of Medicine, at a school or schools recognised by the College; and shall also produce evidence of having studied the following subjects, viz.:—Anatomy; Physiology; Practical Anatomy; Chemistry; Practical Chemistry; Materia Medica and Botany; Medical Jurisprudence; Practice of Medicine and Pathology; Surgery; Midwifery; and of having attended a Medico-Chirurgical Hospital, in which regular courses of Clinical Lectures are delivered, together with Clinical Instruction, for twenty-seven months, or such Hospital for eighteen months, with nine months' attendance on a Medical Hospital, and similar courses of Clinical Lectures and Clinical Instruction; the attendance in each case being for not more than nine months in any year,—namely, for six winter and three summer months,—and the attendance on a Medico-Chirurgical Hospital and Medical Hospital not being taken out in the same year, and of having attended Practical Midwifery for six months.

Candidates who are not personally known to any Fellow of the College are required to transmit Testimonials of Character from registered Physicians or Surgeons; Testimonials from Physicians or Surgeons of Public Hospitals or Infirmaries being preferred.

Students are recommended to divide their course of study into two periods, of two years each: the first to comprise Anatomy and Physiology, Surgery, Chemistry, Botany, and Hospital attendance; the second to comprise Practice of Medicine, Materia Medica, Medical Jurisprudence, Midwifery, and Hospital Attendance.

The Examination is divided into two parts:—First part—Anatomy, Physiology, Botany, and Chemistry. Second part—Materia Medica, Practice of Medicine, Medical Jurisprudence, and Midwifery.

Students may be examined in the subjects of the first part at the termination of the first period of study; or in all the subjects of their education, on the completion of their Medical Studies.

Candidates are required to have passed an examination in the following subjects of preliminary education before the Board of Examiners of this College, previous to or within the first two years of their professional studies; or to have passed, within the period specified, an examination in General Education held by some of the qualifying Bodies, or by some one of the National Education Bodies, approved by the College.

*English:* Composition.

*Modern Languages.*—One French or German Author, at the option of the Student.

*Greek:* Homer's Iliad, first book; or Xenophon's Anabasis, first book; or Walker's Lucian, first twelve Dialogues; at the option of the Student.

*Latin:* Virgil's Æneid, first and second Books; or Sallust; or first two Books of Cæsar, "De Bello Gallico;" at the option of the Student.

*Mathematics:* Euclid, first and second Books; Arithmetic, to the end of Decimal Fractions.

Students in Arts of one Year's standing, of any University in the United Kingdom, requiring Examinations in the first year; Graduates or Licentiates in Medicine or Surgery of any University or College in Great Britain or Ireland, will be exempted from the preliminary Examination.

The above regulations respecting Preliminary Examination will not apply to Candidates who have commenced their professional education previously to the 1st January, 1861.

Candidates qualified as follows are required to undergo the second part of the professional Examination only, viz.:—1. Graduates in Medicine of a University in the United Kingdom, or of any foreign University approved by the College. 2. Fellows, Members, or Licentiates of the Royal Colleges of Physicians of London or Edinburgh, who have been admitted upon examination. 3. Graduates or Licentiates in Surgery.

If the President and Fellows be not satisfied with the answering of a Candidate, they may admit him to re-examination after a lapse of not less than two months.

The examinations are open to all Fellows and Licentiates of the College.

Every Candidate, before being admitted as a Licentiate of the College, is required to subscribe the following declarations, viz.:—

"I do hereby solemnly and sincerely promise that I will observe the Statutes and By-laws of this College, and to my power endeavour that the honour of the College be preserved entire; and in all things that belong to the honour or profit thereof, I shall be ready to give my advice and assistance.

"I hereby authorize the President and Fellows of the King and Queen's College of Physicians in Ireland to erase my name from the list of Licentiates, and I consent to surrender the Diploma received from the College, if I shall, after having obtained the licence of said College, either compound or dispense Medicines for sale, or engage in any trade in any part of the United Kingdom.

"I engage not to endeavour to obtain practice, or to attract public notice, by any unworthy means: I also engage that I will neither permit nor sanction the use of my name by any other person for such purposes, nor in connexion with any secret remedy; and in case of any doubt relative to the true meaning or application of this engagement, I promise to submit to the judgment of the College.

"And I solemnly and sincerely declare, that should I violate any of the conditions specified in this declaration, so long as I shall be either a Licentiate or Fellow of the College, I thereby render myself liable, and shall submit to censure of the College, or to expulsion and surrendering of the Diploma, whichever the President and Fellows of the College shall think proper to inflict."

If the applicant be a member of an Apothecaries' Company, he must surrender his certificate as such previously to examination; and, if admitted, must not be registered as an Apothecary in any part of the United Kingdom.

The President admits to the Licentiateship of the College in the following form:—

"By virtue of the authority vested in me as President, I hereby admit you a Licentiate and Doctor of Medicine of the King and Queen's College of Physicians in Ireland."

The following shall be the form of the Diploma granted to every person examined and approved by the College:—

"We, the President and Fellows of the King and Queen's College of Physicians in Ireland, having duly and deliberately examined _____ in the Principles and Practice of Medicine, and in the accessory Sciences, and having found him well versed therein, do by these presents, grant him a Licence to practise in the Faculty of Physic, and do certify that he is a Physician and Licentiate in Medicine of said College.

"In testimony whereof, we hereunto subscribe our names and affix our common Seal, at the College Hall, in Dublin, this _____ day of _____ 186_____.

"President, _____

_____ Vice-President,

_____ } Censors.

_____ } Fellows."

## REGULATIONS RESPECTING ADMISSION AND EXAMINATION OF CANDIDATES FOR THE LICENCE IN MIDWIFERY, AS AUTHORIZED TO BE GRANTED BY THE CHARTER.

Candidates are required to make application for permission to be examined according to the Form supplied by the Registrar.

Members of the College who may desire to obtain the licence in Midwifery will be required to undergo a special examination, and, if approved, will receive such licence, and shall be distinguished as practitioners in Midwifery in the authorized lists of the College.

Candidates for the licence in Midwifery, who are not Members of the College, will be admitted to examination for such licence in Midwifery on the following qualifications:—The Degree or Licence in Medicine or Surgery from any University or College of Physicians or Surgeons in the United Kingdom, together with a certificate of having attended a six-months' course of lectures on Midwifery, with the attendance for six months at a recognised Lying-in Hospital, or of having attended Practical Midwifery for six months.

The following shall be the form of the Diploma to be granted to every person examined and licensed by the College to practise Midwifery:—

"We, the President and Fellows of the King and Queen's College of Physicians in Ireland, in pursuance of the powers vested in us by Royal Charter, having duly examined _____ in the theory and practice of Midwifery and the diseases peculiar to women, and having found him well skilled in these branches of medicine, hereby certify him to be fully qualified to practise therein. In testimony whereof, we have hereunto subscribed our names and affixed our common Seal.

The Royal College of Surgeons in Ireland grants two different diplomas—one conferring the rank of Fellow, and the other that of Licentiate. A Fellow is a member of the corporation, and entitled to vote at all elections for president, vice-president, and councillors, and also to be elected president, vice-president, or member of council. The Letters Testimonial granted to the Licentiate enable him to "exercise and enjoy all rights of practice in the art or science of surgery, or otherwise, which are commonly enjoyed by the Fellows, and to have free access to the Library and Museum of the College, and make him eligible to the rank of Fellow, subject to specified regulations." Both Fellows and Licentiates are obliged to make and subscribe a formal declaration legally binding them to "observe and be obedient to the statutes, by-laws, and ordinances of the College, and to the utmost of their power to promote its honour, reputation, and dignity." Fellows, in addition, declare that they "do not practise the business or profession of an apothecary or druggist, or indirectly sell drugs or medicines, and that they will not, while Fellows, practise such business or profession."

A student who proposes to become a Fellow or Licentiate of the College, must first become a Registered Pupil, for which he pays a fee of five guineas; but he is permitted to postpone such entry as Registered Pupil and such payment until the period of his final examination.

*Registration of Pupils.*—Every person requiring to be registered as a pupil on the College Books shall, if the Council think fit, be so registered, if he shall have laid before the Council a receipt showing that he has lodged to the credit of the President, and for the use of the College, in the Bank of Ireland, a registry fee of five guineas.

*Qualifications of Candidates for Letters Testimonial.*—Every registered pupil shall be admitted to an examination for Letters Testimonial if he shall have laid before the Council the following documents:—A receipt showing that he has lodged a sum of twenty guineas in the Bank of Ireland to the credit of the President, and for the use of the College. A certificate from the examiners of the College that he has passed an examination as to his acquaintance with the Greek and Latin languages. Certificates showing that he has been engaged in the study of his profession for not less than four years. Certificates of attendance on a Hospital recognised by the Council, where Clinical instruction is given, during three years.

RESOLUTION PASSED BY THE COUNCIL ON THE 23RD JANUARY, 1846—Candidates for Letters Testimonial, who shall have attended recognised Hospitals during three Winter Sessions of six months each, shall be considered to have performed sufficient Hospital attendance; if they shall be able to produce certificates of regular daily attendance during a like number of months at a County Infirmary, or Provincial Surgical Hospital, containing at least fifty beds, provided the Surgeons of such Infirmaries or Hospitals shall make returns to this College, in the months of May and November in each year, of the number of Students so attending.

Certificates of attendance on three courses of Lectures on Anatomy and Physiology; three courses of lectures on the Theory and Practice of Surgery; and of the performance of three courses of Dissections, accompanied by demonstrations; also certificates of attendance on two courses of lectures on Chemistry, or one course of lectures on General, and one on Practical Chemistry; one course of lectures on Materia Medica; one course of lectures on the Practice of Medicine; one course of lectures on Midwifery; one course of lectures on Medical Jurisprudence; and one course of lectures on Botany.

*Qualifications of Candidates for the Fellowship.*—Every registered Pupil or Licentiate shall be admitted to examination for the Fellowship, if he shall have laid before the Council the following documents:—A receipt, showing that he has lodged in the Bank of Ireland, for the use of the College, the sum of ten guineas, in case he is a Licentiate, or twenty-five guineas in case he be a

Registered Pupil; provided in either case he intends to reside beyond ten miles from Dublin. Should the candidate intend to reside in Dublin, or within ten miles thereof, he shall lodge, if he is a Licentiate, twenty guineas; or if he is a Registered Pupil, thirty-five guineas. Fellows entering on the country list, who may subsequently settle as Practitioners in Dublin, or within ten miles thereof, shall pay ten guineas to the College. A certificate that he is twenty-five years of age. A certificate that he is a Bachelor of Arts of some University, or that he has been examined in such manner as the Council may, from time to time, direct, with a view to ascertain that he has obtained a liberal preliminary education. A certificate, signed by two or more Fellows of the College, of good general conduct during his professional education. Certificates that he has been engaged in the acquisition of professional knowledge for a period of not less than six years, during three of which he must have studied in one or more of the Schools and Hospitals recognised by the Council. He may have studied for the other three years in any School or Schools of the United Kingdom which shall be approved by the Council, or in any foreign School of repute. It is also required that the candidate shall have had opportunities of practical instruction, as House-Surgeon or Dresser, in a recognised Hospital. Certificates of attendance on the several courses of lectures required to be attended by candidates for Letters Testimonial, together with one course of lectures on Comparative Anatomy, one course of lectures on Botany, and one on Natural Philosophy. A thesis on some Medical subject or Clinical Reports, with observations of six or more Medical or Surgical cases taken by himself. Candidates of the required age, who shall have taken the degree of Bachelor of Arts in a British or Irish University, and have complied with the foregoing regulations in other respects, will be admitted to examination at the end of five years of professional study, of which three years must have been passed in one or more of the recognised Schools or Hospitals. Licentiates of the College, who may not be able to show that they have followed the course of study specified in the preceding regulations, may, at the expiration of ten years from the date of their diploma, be admitted to the examination required for the Fellowship, provided they produce such evidence as shall be satisfactory to the Council that they have conducted themselves honourably in the practice of their profession.

*Qualification of Candidates for the Diploma in Midwifery.*—Any Fellow or Licentiate of the College shall be admitted to an examination for the Diploma in Midwifery upon laying before the Council the following documents:—A certificate, showing that he has attended one course of lectures on Midwifery and Diseases of Women and Children, delivered by a Professor or Lecturer in some School of Medicine or Surgery recognised by the Council. A certificate, showing that he has attended the practice of a Lying-in Hospital, recognised by the Council, for a period of six months; or the practice of a Dispensary for Lying-in Women and Children, recognised by the Council, and devoted to this branch of Surgery alone. A certificate, showing that he has conducted thirty labour cases at least. Candidates for the Midwifery Diploma shall be publicly examined on the organization of the female; the growth and peculiarities of the fœtus; the Practice of Midwifery, and the Diseases of Women and Children; and, if approved of, shall receive a licence or diploma certifying the same.

*Examination of Candidates for Letters Testimonial.*—Candidates for the Letters Testimonial, or Fellowship of the College, being Licentiates of a College of Physicians or Graduates in Medicine of a University, shall be examined in General and Descriptive Anatomy, Physiology, the Theory and Practice of Surgery, and Operative Surgery; and if, after examination on these subjects, they shall be recommended to the Council, by the Court of Examiners, for admission as Licentiates, they shall be so admitted by the Letters Testimonial of the College. In addition to the oral examinations, candidates for Letters Testimonial shall, subsequent to the 1st of May, 1863, be required to give written answers to written or printed questions to be delivered to them in such a manner as the council may direct.

*Examination of Candidates for the Fellowship.*—The examinations for the Fellowship shall be held at stated periods, as the Council may direct. Five Examiners at least, together with the President, or Vice-President, and two members of the Council, shall be present at each examination. Each candidate shall be examined on two days, with such an interval as the Council may appoint. The subjects of the first examination shall be Anatomy and Physiology (human and comparative); those of the second, Pathology, Therapeutics, the Theory and Practice of Medicine and Surgery, and such other branch of Medical Science as the Council may from time to time direct. In addition to the oral examinations, candidates shall be required to give written answers to written or printed questions, to be delivered to them in such manner as the Council may direct. In the Anatomical examination the candidates shall also perform dissections and operations on the dead body. Candidates whose answering shall be found insufficient will not be allowed to present themselves a second time until after the expiration of one year from the first examination.

*Examination in Midwifery.*—The examination of candidates for the diploma in Midwifery shall be conducted by the Examiners in Midwifery. Such examinations shall be held, from time to time, as the Council may direct. Should a candidate be rejected, he shall not again be admitted to an examination until a period of three months shall have elapsed; and he then shall be obliged to produce satisfactory evidence of his having been engaged in the study of this branch of Surgery subsequent to such rejection.

*Classical Examination, Registration, and Matriculation.*—Registered pupils are admitted to answer the classical examination at any period previous to the final examination for Letters Testimonial. Students who are not registered pupils are also admitted to answer the classical examination upon payment of a matriculation fee of ten shillings; but they are not enrolled as registered pupils, or entitled to the privileges reserved for such pupils, until they have paid the full registration fee of five guineas. The Candidates may select, as the subject of examination, any of the

following Greek Works:—The Gospel of St. John, the Menippus of Lucian, or a Book of Xenophon's Anabasis; also in Latin, First and Second Books of the Æneid of Virgil, the Jugurthine War of Sallust, or third Book of Livy. Candidates will also be required to write English from Dictation, and to give evidence of proficiency in Arithmetic." The certificate required by the By-laws to be laid before the Council by candidates for Letters Testimonial, is granted to registered pupils and students who answer this examination to the satisfaction of the Court of Examiners. Registered pupils are permitted to study in the Museum on two days in each week, and to read in the Library every day, from ten o'clock to one o'clock. They are also permitted to attend the Lectures on Comparative Anatomy, and to obtain certificate of such attendance without payment of any fee. No student is admitted as a candidate to the Sessional Examinations, or to the final examination for Letters Testimonial, until he has been enrolled as a registered pupil.

*Sessional Examinations.*—Pursuant to a resolution of the Council of April 7, 1847, Sessional Examinations are to be held each year in the month of May, to which such registered pupils as present themselves as candidates are to be admitted, in two classes, a senior and junior. The pupils of the junior class are required to produce certificates of attendance in the School of the College, or in a recognised School, during two Winter Sessions at least; and those of the senior class similar evidence of attendance during three Winter Sessions. Such pupils as pass a Sessional Examination in each of these two classes are subject to an examination on one day only at the final trial for the Letters Testimonial of the College.

REGULATION OF SCHOOLS.

*School of the College.*—The School of the College shall be under the control of the President and the Council, and subject to such regulations and supervision as they may, from time to time, establish.

*General Regulation of Schools.*—Certificates shall not be received for attendance on Lectures delivered in Ireland, unless from Teachers in Schools permitting the visitation of the Council, and receiving their sanction; nor shall certificates be received from Teachers who deliver Lectures upon more than one distinct subject as hitherto allotted to Professors in Colleges and Universities. That the following new By-law be, and it is hereby enacted—"Certificates of attendance on Lectures and of the performance of Dissections, shall be received from Professors and Lecturers in all Universities, Colleges, and recognised Schools in her Majesty's dominions, as qualifications for the Fellowship and Letters Testimonial of this College; and also Certificates of attendance on all Hospitals recognised by the Council, where Clinical instruction is given."

This regulation shall not, however, exclude the Certificates of two or more Teachers, who may deliver conjointly, separate, perfect, and distinct courses on Anatomy and Physiology, and on the Theory and Practice of Surgery. Certificates shall not be received for attendance on Lectures on Anatomy and Physiology, unless such Lectures shall have been delivered upon at least five days in each week of the usual winter season, between October and May; nor on the Theory and Practice of Surgery, unless delivered within the same period, or at least three days in each week. The courses of Lectures on the Practice of Medicine, Chemistry, Materia Medica, Midwifery, and Medical Jurisprudence, shall consist of sixty Lectures at least; and the course of Dissections and Demonstrations shall be of six months' duration.

The following Ordinance was made by the Council of the College on the 9th of April, 1851:—"To enable Surgical Students to devote more time to Hospital attendance and Dissection during the Winter Session, the Lectures on Materia Medica, Medical Jurisprudence, Practical Chemistry, and Botany, shall be delivered during the Summer Session in the School of the College, and in the Schools recognised by the College; and certificates granted subsequent to the 30th of April, 1851, shall not be received as qualification for Letters Testimonial, unless issued in conformity with this regulation." Similar regulations have been adopted by the Council of the College of Surgeons, England.

Certificates shall not hereafter be received for attendance on Lectures delivered in Ireland unless from persons who shall have acquired, either by education or practice, such ample information on professional subjects generally as is required from candidates for the Fellowship of the College, and who shall have enjoyed such opportunities of acquiring information on the particular subjects upon which they propose to lecture, as the Council may consider necessary to qualify them to perform that duty.

*Returns of Students attending Lectures.*—Professors and Lecturers are required to transmit to the College, on or before the 25th of November in each year, returns of the names of the pupils who shall have entered to attend, and are then actually attending, their respective Lectures or Demonstrations. They are also required to ascertain, from time to time, whether the students so returned are in attendance or not, as similar returns are required in the course of the session. Certificates of attendance are not received as qualification for the Letters Testimonial or Fellowship of the College unless the name of the Candidate who produces them appears in these returns for the periods corresponding to the dates of such certificates.

REGULATIONS REGARDING THE EDUCATION, QUALIFICATION, AND EXAMINATION OF CANDIDATES FOR THE LICENCE TO PRACTISE AS AN APOTHECARY.

**Candidates for the Licence of the Hall must undergo a preliminary and a professional examination.**

PRELIMINARY GENERAL EDUCATION AND EXAMINATION.

Candidates for the Certificate in Arts (or for the Certificate of Apprentice) will be examined in the following:—In Latin—the Catilinæ Conspiracy of Sallust, and the first three books of the Æneid of Virgil;—in Greek—the Gospel of St. John, and the first twenty Dialogues of Lucian, or the first two Books of Homer's Iliad;—in French—Telemachus, or the History of Charles XII.;—in Science—the first two books of Euclid, Algebra inclusive of Simple Equations, and Arithmetic to the end of Decimals;—and in English—English History and Composition; and the Elements of Natural History and Natural Philosophy.

An Examination in Arts will be held in the Hall four times in the year, namely, upon the third Friday in January, April, July, and October, at Two o'clock, P.M. This examination will be conducted by Graduates in Arts of the University of Dublin, with Assessors from the Court of the Hall.

PROFESSIONAL EDUCATION AND EXAMINATION.

Candidates for the Licence to practise as an Apothecary must produce Certificates to the following effect:—1. Of having passed the Preliminary Examination in Arts.—2. Of being twenty-one years of age, and of good moral character.—3. Indenture of Apprenticeship to a qualified Apothecary or a Certificate from an Apothecary of having been engaged at practical Pharmacy for a period of three years subsequent to having passed the Examination in Arts.—4. Of having spent four years in Professional Study.—5. Of having attended the following courses, viz.:—Chemistry, during one Winter Session. Anatomy and Physiology, during two Winter Sessions. Demonstrations and Dissections, during two Winter Sessions. Botany and Natural History, during one Summer Session. Materia Medica and Therapeutics, during one Summer Session. Practical Chemistry (in a recognised Laboratory), during three Months. Principles and Practice of Medicine, during one Winter Session. Midwifery and Diseases of Women and Children, during Six Months. Practical Midwifery, attendance upon twenty Cases. Surgery, during one Winter Session. Medical Jurisprudence, during one Summer Session. Instruction and proficiency in Vaccination.—6. Of having attended, at a recognised Hospital or Hospitals in the United Kingdom, the Practice of Medicine and Clinical Lectures on Medicine during two Winter and two Summer Sessions; also the Practice of Surgery and Clinical Lectures on Surgery during one of the Winter and one of the Summer Sessions. The examination for the Licence to practise as an Apothecary is divided into two parts. The First—Chemistry, Botany, Anatomy, Physiology, Materia Medica, Therapeutics, and Pharmacy. The Second—Medicine, Surgery (principles of), Pathology, Midwifery, Forensic Medicine, and Hygiene. The first of these examinations may be undergone at the close of the second Winter Session, and after the Candidate has attended the Courses upon the several subjects named for this Examination, and the second or final not before the completion of the fourth Winter Session. The Licence of the Apothecaries' Hall, Dublin, entitles its possessor to be registered as a Medical Practitioner, under "the Medical Act, 1858," and to practise Medicine and Pharmacy in any part of her Majesty's dominions. The Governor and Court of Examiners meet at the Hall upon every Friday where Candidates for the Licence to practise must attend at the hour of Two o'clock, P.M. Candidates for the Licence must lodge their Testimonials and enrol their names and address with the Clerk at the Hall, in Dublin, a week prior to the day of Examination. A rejected Candidate cannot be re-admitted to examination until after the expiration of six months. Candidates for the Certificate of Assistant to an Apothecary, in compounding and dispensing medicine, must have completed at least three years of his Apprenticeship with an Apothecary, or have a Certificate from an Apothecary of having been engaged at practical Pharmacy for a period of three years, together with a certificate of good moral character. The examination of the intending Assistant will be restricted to Pharmacy, scientific and practical, and the history and character of Medicines, with their mode of preparation, combination, and doses. An Examination of Apprentices is held at the Hall, in the first week in May annually, upon some subject of Medical Chemistry, which is announced by the Council at the commencement of the previous Winter Session, and a prize of Five Guineas is awarded to the successful competitor.

In reference to the foregoing Education and Examinations, the Council observe that every Candidate for the Preliminary Examination must have read all the books in the prescribed course, and must undergo such examination in them as shall satisfactorily test his grammatical knowledge of the languages, and his acquaintance with the working of the several problems and calculations, and his familiarity with the leading events of English History. In each department, numerical values will be attached to the answers, and only Candidates who attain a certain proficiency will

obtain "the Certificate in Arts." This Examination will be conducted by printed papers, and the answers will be required in writing. Every Candidate for "The Licence" must produce his Certificate in Arts, his Indenture, or Certificate in Pharmacy duly attested, a copy of his Baptismal Registry, or other satisfactory evidence of his age, and Certificates of having diligently attended the Curriculum laid down by the Council. The Examination for "The Licence" consists of two parts. In the first part, the Candidate is required to recognise and describe samples of drugs and plants used in medicine, and to indicate the chemical and physical means of distinguishing them; to enumerate and explain the pharmaceutic preparations of the Pharmacopœia, with their uses and doses: to translate Latin prescriptions correctly; and to answer questions in Human Anatomy, and in Vegetable and Animal Physiology. This Examination will be partly written and partly oral.

In the second part, the Candidate, having passed the first part satisfactorily, must answer questions in the several departments of Practical Medicine, and demonstrate and define diseased structure and injuries from Pathological illustrations, and give also the appropriate treatment and the form of prescription suitable in each case. This Examination will be also partly written and partly oral.

Doctors of Medicine of any of the Universities in the United Kingdom, or Surgeons of any of the Royal Colleges of Surgeons, whose qualifications as such appear in the Medical Register, who have first passed an examination in Arts, and have also served an Apprenticeship or the required term at practical Pharmacy to a qualified Apothecary, and who desire to obtain the Licence of the Hall, will be required to undergo an examination—the former in Pharmacy, and the latter in Medicine and Pharmacy; and in either case the Examination of the Candidate will be confined to one day's examination.

## LEDWICH SCHOOL OF ANATOMY, MEDICINE, AND SURGERY, PETER-STREET, DUBLIN.

FOUNDED 1810.

This School, claiming priority of foundation many years before any of its kindred unchartered institutions were projected, was established in 1810 by J. Kirby. At this period the Schools of the College of Surgeons and University were the only sources of medical education in Ireland, and this necessarily involved an absence of that competition always conducive to the true spirit of improvement. Since its foundation, this School has maintained its character for the sound principles of its anatomical and surgical instruction, and numbers amongst its former pupils several of the most distinguished teachers of the Irish School of Medicine.

*Anatomy, Physiology, Pathology, &c.:* Mr. E. Ledwich and Dr. T. P. Mason. *Theory and Practice of Surgery:* Messrs. Wharton and Barton. *Surgical and Descriptive Anatomy, Demonstrations and Dissections:* Messrs. T. P. Mason, E. Ledwich, Booth, Bright, and O. Leary. *Theory and Practice of Medicine:* Dr. W. Moore. *Midwifery and Diseases of Women and Children:* Dr. J. Ringland.

*Materia Medica and Therapeutics:* Dr. H. Minchin. *Forensic Medicine and Hygiene:* Dr. R. Travers. *Chemistry, Practical Chemistry, and Natural Philosophy:* Dr. Cameron. *Botany:* Dr. C. Asken.

Certificates of Attendance upon these lectures are recognised by the Queen's University, Ireland; the King and Queen's College of Physicians; by the University and the College of Physicians of London; Trinity College, Dublin; the Colleges of Surgeons in Dublin, London, and Edinburgh; the University of Glasgow, as constituting an "*Annus Medicus*;" the Faculty of Glasgow; by the Army and Navy Medical Boards; and the Apothecaries' Halls, London and Dublin.

EDWARD LEDWICH, Secretary, 7, Harcourt-st. Dublin.

O'Grady.

The Dublin Chemical Society was founded for the purpose of promoting the study of Chemistry by the reading of Original Papers at the stated meetings of the Society; by the delivery of Lectures, and by the institution of Classes for the study of Practical Chemistry. The Society will receive from non-members original communications relating to Chemistry, Geology, Mineralogy, and all other sciences allied to Chemistry.

The Professor to the Society delivers several courses of Lectures during the year. There are, besides, incidental Lectures by other parties, to all of which the Students are admitted free.

There are two Evening Classes established for the study of Practical Chemistry—the terms of admission to which, including the cost of re-agents, ingredients, &c., are as follows:—Elementary, Class, 15s. per quarter. Advanced Class, 12s. per month.

The Museum contains about one thousand Chemical and Geological Specimens.

Dublin—Committee of Council on Education—Department of Science and Art. Museum of Irish Industry and Government School of Science applied to Mining and the Arts, 51, Stephen's-green.—*Director*, Sir Robert Kane, M.D.; *Professors—Physics*, W. Barker, M.D.; *Chem.*, W. K. Sullivan, Ph. D.; *Botany*, W. H. Harvey, M.D.; *Geology*, J. Beete Jukes; *Zoology*, J. Morgan (*pro tem.*); *Analyt. Chem.*, R. Galloway; *Cur. of Mus.*, Alphonse Gages; *Asst. Chem.*, W. Plunkett; *Clerk and Account.*, George C. Penny.

In this Institution, founded for the diffusion of *Industrial Education* in Ireland, systematic Courses of Lectures are delivered on the branches of Science connected with Mining and Manufactures, and practical instruction is given in Chemistry applied to the Arts. The Programme of the educational Arrangements for the Session 1865-66 may be obtained by application to Mr. Penny, at the Museum.

The institution embraces a chemical department, destined for carrying on such investigations as may extend our knowledge of the physical history and industrial capabilities of Ireland, and supply that analytical information as to the nature of our soils upon which sound agricultural improvement should be based.

The Museum Library includes documents and records of an economic or descriptive character regarding the past history and present condition of our mining, manufacturing, and agricultural industry. To these documents reference shall at all times be easy to those persons interested in their study.

The information collected by the officers of the Museum, and the results of the investigations carried on in the establishment, will be from time to time published.

To an institution founded for such beneficial objects, the active co-operation of all classes may reasonably be expected; and Sir Robert Kane, the director, receives donations for the Museum, specimens of which will, when prepared for exhibition, be in every instance deposited in the Museum with the donor's name affixed. It is necessary that donations should be accompanied by an accurate description of their origin; and, if the director be apprized beforehand of the nature of the donation which it is intended to present to the Museum, he will be happy to supply special instructions as to the means to be taken to render the specimens the most suitable to the Museum, and the most honourable to the donors.

DUBLIN—IRISH ARCHÆOLOGICAL AND CELTIC SOCIETY. — Instituted 1841. *Pres.*, Duke of Leinster; *Vice-Pres.*, Marquis Kildare, Earl Dunraven, Lord Talbot de Malahide, and Very Rev. C. W. Russell, D.D.; *Counc.*, Very Rev. C. Graves, Rev. J. Graves, Mr. W. H. Hardinge, Mr. D. H. Kelly, Sir T. A. Larcom, Mr. J. C. O'Callaghan, Dr. G. Petrie, Rev. Dr. W. Reeves, Dr. A. Smith, Mr. W. R. Wilde; *Secs.*, Rev. Dr. J. H. Todd and Mr. J. T. Gilbert.

The immediate object of this Society is to print in the original, with accurate English translations and annotations, the unpublished documents illustrative of Irish history, especially those in the ancient and obsolete language of the country, many of which can be faithfully translated and elucidated only by scholars who have been long engaged in the study of the Celtic remains of Ireland. The publication of these manuscripts will render many most important literary monuments accessible, not only for historical inquiry, but for the purposes of comparative philology.

The Books printed by the Society are to be obtained only by its Subscribers, who are divided into two classes: Members who pay three pounds admission fee, and one pound per annum; and Associates who pay an annual subscription of one pound, without any entrance fee. Members may compound for the future annual subscriptions by the payment of ten pounds, including the subscription for the current year. Members alone are eligible to the Council, and they only can vote at general meetings of the Society. The works published severally by the Irish Archæological and Celtic Societies may be obtained by, and through, Members, at the charges specified in the joint Catalogue, copies of which can at all times be obtained free of expense on application to the Hon. Secretaries, 19, Dawson-street, Dublin.

Subscriptions are received by Edward Clibborn, Esq., 19, Dawson-street, Dublin. Persons desirous of becoming Subscribers to the Society are requested to communicate, by letter, with the Hon. Secretaries, at No. 19, Dawson-street, Dublin.

The Society was founded for promoting Husbandry and other useful Arts and Science in Ireland, and is the oldest institution of the kind in the United Kingdom. It was chartered by George II. in 1749-50, and received for several years the annual sum of 500*l.* from the Royal Privy Purse. In 1761 it was endowed by the Irish Parliament, and has been in the enjoyment of parliamentary grants for the last ninety years.

Candidates are elected by ballot, being proposed and seconded by members at one meeting, and balloted for at the next meeting.

The session commences on the first Thursday in November, and terminates on the first Thursday in June. At the meeting on the second Thursday in November, in addition to ordinary business, the Vice-Presidents, the Honorary Secretaries, and the several Officers, Professors, &c., are balloted for and elected.

On the first Thursday in December eight standing committees are elected, who carry out the objects of the Society; other meetings are held on the first Thursday in January (when the Council for the ensuing year is elected), the first Thursday in February, March, April, May, and June.

The meetings on the second Thursday in November, the first Thursdays in March and June, are stated general meetings pursuant to charter, at which alone bye-laws can be made or altered.

Evening meetings are held on the third Monday in each month during the session. At these meetings papers are read, and discussions elicited upon subjects connected with Practical Science and Art.

The Council meets weekly (except during the recess), at three o'clock on such Thursdays as are unoccupied by meetings of the Society, and consists of seven Vice-Presidents, two Honorary Secretaries, the Chairman, and one member from each of the Committees, and nine members from the Society at large not being on any of the Committees.

Agricultural Exhibitions are held at Easter and Christmas.

The Library, to which the Public is admitted upon the recommendation of a member, contains 30,000 volumes. J. R. Joly, LL.D., has recently presented to the Society a donation of about 20,000 rare books, and 10,000 valuable prints. There is an extensive Botanic Garden, and a fine Agricultural Museum; also, a Museum of Natural History open free to the public.

The Government School of Art is consolidated with the Drawing School of the Society.

The Annual Meeting is held on the first Monday in May at Barrington's Hospital.

ROYAL MEDICAL BENEVOLENT FUND SOCIETY OF IRELAND.—Established in 1842, for the relief of Medical men, under severe and urgent distress, occasioned by sickness, accident, or any other calamity, and, under circumstances of peculiar emergency, of their widows and orphans.

*Patron*, H. M. Gracious Majesty the Queen.

*Vice-Patron*, His Excellency the Lord Lieutenant.

RULES OF THE SOCIETY.

1. That a charitable fund be created by Donations and Subscriptions, to be called the Medical Benevolent Fund of Ireland.

2. That contributions be received from all persons friendly to the objects of the Society, though not belonging to the profession.

3. That the object of the Fund be the relief of Medical men under severe and urgent distress, occasioned by sickness, accident, or any other calamity.

4. That any Physician or Surgeon labouring under such afflictions be considered a fit object for the charity.

5. That the claims of contributors shall, as far as possible, have the preference, but that contributions to the Fund give no claim of right to relief, the Fund being one of pure charity; and that each case be judged according to the urgency of the distress.

6. That under circumstances of peculiar emergency, relief may be extended to the widows and orphans of Physicians and Surgeons, it being understood that it is not the design of this Fund to relieve Medical men from the necessity of providing for their families by ordinary life assurances, and such other means as prudence dictates.

7. That the management of the Fund be conducted by Committees of the contributing members, annually appointed; the Central Committee to be at Dublin, and Local Committees, subordinate to the Central, in each of the principal cities and towns; the Central Committee having power to appoint Local Committees wherever they may be required.

The following are the Committee, Treasurer, Secretaries, and Trustees for the ensuing year:—

Dr. R. Adams, Dr. T. E. Beatty, Dr. C. Benson, Dr. D. F. Brady, Dr. F. Churchill, Dr. M. Collis, Dr. D. J. Corrigan, Dr. C. P. Croker, Dr. M. W. Daly, Dr. V. Duke, Dr. J. F. Duncan, Dr. T. This Society was formed in 1862 by the Union of the Belfast Medical Society with the Clinical and Pathological and the Ulster Medical Protective Society. It has for its objects to afford its members increased facilities of consulting the best medical works and periodicals, by means of the Library; of deriving mutual instruction on medical subjects by means of its discussions and its Pathological Museum; and, as a collective body, protecting the interests of the Medical Profession. It possesses a well selected and valuable Library of ancient and modern works, medical and scientific; a Museum, containing many rare pathological specimens, both of which are in the Society rooms in the General Hospital; also a Reading-room in a central part of the town, where a selection from the newspapers of the day, and almost all the Medical Journals are kept for the convenience of members. The Society meets monthly, from May to November; and weekly, on Saturdays, from November to May. The Annual Meeting for the election of office-bearers, &c., is held on the first Saturday in May, at the rooms, 33, High-street, Belfast.

THE

# POOR-LAW UNIONS

OF

# Ireland,

GIVING THE NAME OF THE COUNTIES, UNIONS, DISTRICTS, POPULATION, AREA IN ACRES, NAMES OF MEDICAL OFFICERS, AND THEIR SALARIES.

---

## COMMISSIONERS FOR ADMINISTERING THE LAWS FOR RELIEF OF THE POOR IN IRELAND, CUSTOM HOUSE, DUBLIN.

COMMISSIONERS.

Alfred Power, Esq., *Chief Commissioner.*
The Right Hon. The Chief Secretary to the Lord Lieutenant of Ireland, for the time being;
The Under Secretary to the Lord Lieutenant of Ireland, for the time being;
John M'Donnell, Esq., M.D. (*Medical Commissioner*), and Richard M. Bellew, Esq.
*Chief Clerk*, Benjamin Banks, Esq.

*Inspectors*, Richard Bourke, William J. Hamilton, Samuel Horsley, Richard Tipping Hamilton, Henry Robinson, Wm. P. O'Brien, Esqrs., and Dr. Terence Brodie.

*Medical Inspectors*, Dr. John Fras. Purcell, Dr. John Hill, Dr. Alex. Knox, and Dr. Charles Croker King.

*Clerks, First Class*, W. D. Wodsworth, G. Barber, G. W. Finlay, T. Collot, Richard Barney, and P. Norris, Esqrs.

*Second Class*, D. T. Tracey, W. Ellard, E. J. Browne, R. F. Clokey, R. H. Jephson, John M'Gloin, R. Hunt, W. McDermott, A. Stanley, and A. McHugh, Esqrs.

*Junior Clerks*, J. M'Veigh, J. L. Browne, J. D. Whitehead, T. W. Foy, J. M'Aleer, J. Ryan, T. Macdonnell, P. Martin, P. H. Gannon, C. Pelley, G. H. Tench, J. P. Kennedy, Æ. M. Byrne, J. Smith, W. Franklin, W. Tracy, R. Kearney, T. Caffrey, E. B. Cooper, and J. Brenan, Esqrs.

*Auditors of Union Accounts*, Charles Mathew, Reuben Simms, William Leathem, and James Martin, Esqrs.

*Solicitors*, Messrs. Geale and Dwyer, 18, Talbot-street.

---

To facilitate reference to this List, the following explanation is necessary:—

1. The COUNTIES are arranged *alphabetically*; as are also the UNIONS under each County.

2. Each *paragraph* contains the particulars of *one union*. The name of the Union is given in *small capitals*, and the name of each district in *italics*. The letter P. is placed before the *Population*, and the letter A. before the *Area* in *Acres*. Then follows the name of the Medical Officer, with the amount of his salary.

3. To a few of the Unions an asterisk * has been prefixed, to signify that the Clerks of such Unions have not replied to the inquiries forwarded to them. For the correctness of the entries so marked, the Editors do not hold themselves responsible.

4. In those cases where the amounts of extras have been given, it may, *as a rule*, be inferred that both medical fees and vaccination charges have been included.

OF THE

# ARMY & NAVY MEDICAL DEPARTMENTS.

## MEDICAL DEPARTMENT OF THE ARMY.

*Office, 6, Whitehall-yard, London, S.W.*

*Director-General*, Sir J. B. Gibson, K.C.B., M.D., Hon. Phys. to H.M. the Queen; *Insp.-Gen. Hosps. (Sanitary Branch)*, Dr. T. G. Logan, Hon. Phys. to H.M. the Queen; *Staff Surgeon (Medical Branch)*, Dr. T. Crawford; *Dep. Insp.-Gen. (Statistical Branch)*, Dr. T. G. Balfour, F.R.S.; *Staff Surgeons-Major and Surgeons*, Dr. A. Barclay, Dr. H. H. Massy, and Mr. T. G. Fitzgerald; *Staff Asst.-Surg.*, Dr. A. Semple; *Senior Clerk*, Walter W. Bassano, Esq.

The following warrant was issued on October 1st, 1858:—

"VICTORIA, R.

"Whereas we have taken into our consideration the recommendations of the commissioners appointed by our authority to inquire into the regulations affecting the sanitary condition of our military forces and the medical treatment of the sick and wounded of our army, our will and pleasure is that from and after the date of this warrant the following rules shall be established for the future admission, promotion and retirement, and the pay, half-pay, relative rank and allowances of the medical officers of our army, and that by these rules our Commander-in-Chief shall govern himself in recommending officers for admission, promotion, and retirement.

"1. The grades of Medical Officers in our army shall be four in number, viz.:—

"(1.) Inspector-general of hospitals.

"(2.) Deputy-inspector-general of hospitals.

"(3.) Staff or regimental surgeon, who after twenty years' full-pay service in any rank shall be styled surgeon-major.

"(4.) Staff or regimental assistant-surgeon.

"2. No candidate shall be admitted to the competitive examination for a commission in the Medical Department of our army who does not possess such a certificate or certificates as would qualify a civilian to practise medicine and surgery; and no such candidate shall receive a commission as assistant-surgeon until he shall have satisfactorily passed an examination in military medicine, surgery, and hygiene, after attending the authorized course in a general military hospital.

"3. No Assistant-Surgeon shall be eligible for promotion to the rank of Surgeon until he shall have passed such examination as our principal Secretary of State for War may require, and shall have served on full-pay with the commission of assistant-surgeon for five years, of which two shall have been passed in or with a regiment.

"4. A Surgeon, whether on the Staff or attached to regiments, must have served ten years in the army, with a commission on full-pay, of which two must have been passed with the rank of Surgeon in or with a regiment, before he will be eligible for promotion to the rank of Deputy-Inspector-General of Hospitals.

"5. A Deputy-Inspector-General of Hospitals must have served five years at home, or three abroad in that rank, before he shall be eligible for promotion to the rank of Inspector-General.

"In cases, however, of emergency, or when the good of the service renders such alteration desirable, it shall be competent for our Secretary of State for War to shorten the several periods of service above-mentioned in such manner as he shall deem fit and expedient

"6. Assistant-Surgeons shall, as a general rule, be promoted to the rank of Surgeon in the order of their seniority in the service, unless unfit for the discharge of their duties from physical or professional incompetence or misconduct. In cases of distinguished service, however, an Assistant-Surgeon may be promoted without reference to seniority; and in such cases, with a view to insure the responsibility attaching to an appointment made out of the regular course of promotion, the recommendation in which the services of the officer shall be detailed, shall be published in the General Orders of the Army and in the *Gazette* in which his promotion appears.

"7. All promotion from the rank of Surgeon to that of Deputy-Inspector, and from the rank of Deputy-Inspector to that of Inspector, shall be given by selection for ability and merit; and the grounds of such selection shall be stated to us in writing, and recorded in the office of our Commander-in-Chief, the selection being made from the whole rank of Surgeons, whether styled Surgeons or Surgeon-Majors.

"8. The rates of pay of the Medical Officers of our army shall be in accordance with the following schedule:—

"9. In addition to the pay of their ranks, officers at the head of the Medical Department on foreign stations shall receive allowances at the under-mentioned rates, when serving under the following circumstances, viz.:—

"If with an army in the field of 10,000 men or upwards, 20*s.* per day.

"If with an army in the field of 5000 men or upwards, 15*s.* per day.

"If with an army in the field of any less number, 10*s.* per day.

"If serving in a colony where the forces consist of 1500 men or upwards, 5*s.* per day.

"10. After the date of this warrant every Medical Officer placed on half-pay by reduction of establishment, or on the report of a Medical Board, in consequence of being incapacitated by reason of ill-health, caused by wounds, or brought on by the discharge of his duties, shall be allowed the half-pay to which his period of full-pay service may entitle him, according to the following schedule:—

| | After 30 Years' Service on Full Pay. | After 25 Years' Service on Full Pay. | After 20 Years' Service on Full Pay. | After 15 Years' Service on Full Pay. | After 10 Years' Service on Full Pay. | After 5 Years' Service on Full Pay. | Under 5 Years' Service on Full Pay. |

| Assistant-Surgeon . . . | — | — | — | — | 10 0 | 8 0 | 6 0 |

"11. With a view to maintain the efficiency of the service all Medical Officers of the rank of Surgeon-Major, Surgeon, or Assistant-Surgeon, shall be placed on the retired list when they shall have attained the age of fifty-five years, and all Inspectors-General and Deputy Inspectors-General when they shall have attained the age of sixty-five years.

"Officers thus superannuated shall be entitled to the rates of half-pay stated in the preceding schedule.

"12. Every Medical Officer who shall have served upon full-pay for twenty-five years and upwards shall have the right to retire upon half-pay, at the rate of seven-tenths of the daily pay he was in receipt of when thus retiring, provided he shall have served three years in the rank from which he retires, or shall have served in any rank for ten years in the colonies, or five years with an army in the field. But if he shall not have complied with any one of these conditions, he shall be entitled only to half-pay at the rate of seven-tenths of the daily pay he was in receipt of before his last promotion.

"13. Every Medical Officer thus claiming to retire must give six months' notice to the head of his department of his intention to claim this right prior to his being allowed to retire; and no Medical Officer shall have a right to give such notice after he shall be under orders to proceed to any foreign station, until he shall have served at such station for one month.

"14. If a Medical Officer is placed on half-pay from any other cause than those hereinbefore named, he shall only be allowed a temporary rate of half-pay (not exceeding the rates stated in Clause 10), for such period and at such rate as shall be assigned to him by our Secretary of State for War, on a consideration of the length and character of the services rendered to the public by such Medical Officer.

"15. On reduction of establishment the Surgeon and Assistant-Surgeon who are junior in the ranks shall be the first reduced, and on restoration to full pay the reduced officers who are senior in their rank shall be the first restored.

* Or on promotion, should these periods of service not be already completed.

"16. The relative rank of the Medical Officers of our army shall be as follows:—

"Staff or regimental Assistant-Surgeon as a Lieutenant, according to the date of his commission; and after six years' full pay service as Captain, according to the date of the completion of such service.

"Staff or regimental Surgeon as Major, according to the date of his commission; and Surgeon-Major as Lieutenant-Colonel, but junior of that rank.

"Deputy Inspector-General of Hospitals, as Lieutenant-Colonel, according to the date of his commission; and after five years' full-pay service as Deputy Inspector-General as Colonel, according to the date of the completion of such service.

"Inspector-General of Hospitals as Brigadier-General, according to the date of his commission; if with an army in the field, or after three years' full-pay service as Inspector-General, as a Major-General, from the date of his joining such army in the field, or according to the date of the completion of such service.

"17. Such relative rank shall carry with it all precedence and advantages attaching to the rank with which it corresponds (except as regards the presidency of Courts-martial, where our will and pleasure is, that the senior combatant officer be always president), and shall regulate the choice of quarters, rates of lodging money, servants, forage, fuel, and light, or allowances in their stead, detention, and prize money. But when a Medical Officer is serving with a regiment or detachment, the officer commanding, though he be junior in rank to such Medical Officer, is entitled to a preference in the choice of quarters.

"18. Medical Officers shall be entitled to all the allowances granted by our warrant of the 13th of July, 1857, on account of wounds and injuries received in action, as combatant officers holding the same relative ranks.

"19. Their families shall in like manner be entitled to all the allowances granted by our warrant of 15th of June, 1855, to the families of combatant officers holding the same relative ranks.

"20. Medical Officers shall be entitled to field allowances at home and abroad at the following rates, subject to all the conditions and restrictions laid down in our warrant of 1st of July, 1848:—

DAILY RATE.

| | Ordinary. | Extraordinary. |
|---|---|---|
| REGIMENTAL. | s. d. | s. d. |
| Assistant-Surgeon, under six years' service | 1 0 | 2 0 |
| Assistant-Surgeon, above six years' service | 1 6 | 2 6 |
| Surgeon | 2 6 | 4 6 |
| Surgeon-Major | 2 6 | 4 6 |
| STAFF. | | |
| Assistant-Surgeon, under six years' service | 1 6 | 2 6 |
| Assistant-Surgeon, above six years' service | 2 0 | 3 6 |
| Surgeon | 3 0 | 5 0 |
| Surgeon-Major | 3 0 | 5 0 |
| Deputy Inspector-General, under three years' service | 4 6 | 7 6 |
| Deputy Inspector-General, above three years' service | 6 0 | 10 0 |
| Inspector-General of Hospitals | 9 0 | 15 0 |

"21. Surgeons or Surgeons-Major of infantry regiments shall not in future be subject to any diminution of the allowance of forage according to the regulations in force, nor to any stoppage out of their daily pay for any ration of hay, straw, or oats supplied for the horse or horses kept by them for the public service.

"22. All Staff-Surgeons of the first class and Senior Surgeons of Artillery now serving, or who, being now on half-pay, shall hereafter be called upon to serve, shall rank as Surgeons-Major from the date of their commissions as Staff-Surgeons of the first-class, or Senior Surgeons of Artillery, and shall receive the pay of Surgeon-Major according to the foregoing schedule of full-pay from the date of this warrant, or from the date of being called from half-pay to full-pay; and all surgeons who have already completed twenty years' full pay service, or upwards, in any rank, shall have the rank and pay of Surgeons-Major from the date of this warrant.

"23. Medical Officers shall be held entitled to the same honours as other Officers of our Army of equal relative rank.*

"24. A Medical Officer, retiring after a full-pay service of twenty-five years and upwards, may, if recommended for the same by the head of his department, receive a step of honorary rank, but without any consequent increase of half-pay.

"25. Good-service pensions shall be awarded to the most meritorious Medical Officers of our army, under such regulations as shall be from time to time determined by us, with the advice of our Secretary of State for War.

* This clause does not extend to the compliments to be paid by garrison or regimental guards, as laid down in pages 29 and 30 of the "Queen's Regulations for the Army."

"26. Six of the most meritorious Medical Officers of the army shall be named my Honorary Physicians, and six my Honorary Surgeons.

"Given at our Court of St. James's, this 1st day of October, 1858, in the twenty-second year of our reign.

"By her Majesty's command, J. PEEL."

QUALIFICATIONS AND EXAMINATION OF CANDIDATES FOR COMMISSIONS IN THE ARMY MEDICAL SERVICE.

1. Every Candidate desirous of presenting himself for admission to the competitive examination required for the Army Medical Service must be unmarried. He must produce a birth certificate from the District Registrar, or a certificate of baptism in which the date of birth is stated; or, if neither of these can be obtained, an affidavit from one of the parents, or from some other near relative who can attest the date of birth, will be accepted. The certificate or affidavit must show that the Candidate is not above 28 nor under 21 years of age. He must also produce certificates of moral conduct and character, one of them from the parochial minister, if possible.

2. The Candidate must make a declaration that he labours under no mental or constitutional disease, nor any imperfection or disability that can interfere with the most efficient discharge of the duties of a medical officer in any climate.* He must also attest his readiness to engage for general service immediately on being Gazetted.

3. The Candidate must possess a diploma in surgery, or a licence to practise it, as well as a degree in Medicine, or a licence to practise it in Great Britain or Ireland.

4. Certificate of registration in accordance with the Medical Act of 1858, and certificate of character, must be lodged at the Army Medical Department for examination and registry, at least one week before the Candidate appears for examination. *The certificate of age must accompany this form when filled up and returned.*

5. On producing the foregoing qualifications, the Candidate will be examined by the Examining Board in the following subjects:—

Anatomy and Physiology. Surgery. Medicine, including therapeutics, the diseases of women and children, chemistry and pharmacy, and a practical knowledge of drugs. (The examination in Medicine and Surgery will be in part practical, and will include operations on the dead body, the application of Surgical Apparatus and the examination of Medical and Surgical Patients at the bedside.)

The eligibility of each Candidate for the Army Medical Service will be determined by the result of the examinations in these subjects only.

Candidates who desire it will be examined in Comparative Anatomy, Zoology, and Botany, with special reference to Materia Medica, and the number of marks gained in these subjects will be added to the total number of marks obtained in the obligatory part of the Examination by Candidates who shall have been found qualified for admission, and whose position on the list of successful competitors will thus be improved in proportion to their knowledge of these branches of Science.

The subjects for this part of the examination will be taken from the following books:—(1.) "Animal Kingdom," by W. S. Dallas, F.L.S. (2.) "Outlines of the Structure and Functions of the Animal Kingdom," by Rymer Jones; or "Cours Elémentaire d'Histoire Naturelle," par Milne Edwards. (3.) Lindley's "School Botany;" Lindley's "Medical and Economic Botany;" Henfrey's "Elementary Course of Botany."

Candidates who may desire it may also be examined in the Elements of Physics and in Physical Geography. The following books are recommended for this purpose:—(1.) "Elements of Natural Philosophy," by Golding Bird and C. Brooks. (2.) "Physical Geography," by Mrs. Somerville.

6. The Examiners in London shall prepare a list in order of merit, with the marks affixed in the different subjects, to be transmitted to the Director-General, and communicated to the Professors of the Army Medical School. If any Candidate is found to be deficient in any particular subject, this shall be stated, in order that he may receive special instruction on the point at Netley.

7. After passing his preliminary examination, every Candidate will be required to attend one entire Course of Practical Instruction at the Army Medical School, before being admitted to his examination for a Commission, on—(1.) Hygiène. (2.) Clinical and Military Medicine. (3.) Clinical and Military Surgery. (4). Pathology of Diseases and Injuries incident to Military Service. These courses to be of not less than four months' duration.

8. At their conclusion the Candidate will be required to pass an examination on the subjects taught in the School. The Examination will be conducted by the Professors of the School. The Director-General, or any Medical Officer deputed by him, may be present and take part in the examination. If the Candidate gives satisfactory evidence of being qualified for the practical duties of an Army Medical Officer he will be eligible for a Commission as Assistant-Surgeon.

---

* His physical fitness will be determined by a Board of Medical Officers who are required to certify that the Candidate's vision is sufficiently good to enable him to perform any surgical operation without the aid of glasses. A moderate degree of Myopia would not be considered a disqualification provided it did not necessitate the use of glasses during the performance of operations, and that no organic disease existed. Every Candidate must also be free from organic disease of other organs, and from constitutional weakness or other disability likely to unfit him for military service in any climate.

9. During the period of his residence at the Army Medical School each Candidate will receive an allowance of 5s. per diem, with quarters; or 7s. per diem, without quarters, to cover all costs of maintenance; and he will be required to provide himself with uniform (viz., the Regulation undress uniform of an Assistant-Surgeon, but without the sword).

10. All Candidates will be required to conform to such rules of discipline as the Senate may, from time to time, enact.

RULES FOR THE EXAMINATION OF ASSISTANT-SURGEONS PREVIOUS TO PROMOTION.

This examination is intended as a test for promotion, and may be taken at any time after the Assistant-Surgeon has served five or more years. When Assistant-Surgeons have served the requisite time they will be examined in the following manner:—A series of printed questions, prepared by the Examining Board, will be sealed and sent by the Director-General to the Principal Medical Officers of stations where Assistant-Surgeons eligible for examination may be serving at the time. It will be the duty of the Principal Medical Officer of the station to deliver these sealed questions to the Assistant-Surgeons, and to see that they are answered without the assistance of books, notes, or communication with any other person. The answers are to be signed and delivered, sealed, to the Principal Medical Officer, who is to send them, unopened, to the Director-General, together with a certificate from the Surgeon of the Regiment, or other superior Medical Officer, that the Assistant-Surgeon has availed himself of every opportunity of practising surgical operations on the dead body.* The Assistant-Surgeon will also be required to transmit, together with his answers to the Director-General, a Medico-Topographical Account of the station where he may happen to be at the time, or of some other station where he may have been resident sufficiently long to enable him to collect the necessary information for such a report. Failing this, he will send a Medico-Statistical report of his regiment for a period of at least twelve months. If the Examining Board is satisfied with the replies to the questions, and the Director-General is satisfied with the certificates and with the Medico-Topographical or Statistical Report, the Assistant-Surgeon will be held qualified for promotion. The Assistant-Surgeon will thus be subjected to three separate examinations within the first ten years of his service, each examination having a definite object. The FIRST, to ascertain, previous to his admission into the service as a Candidate, his scientific and professional education, and to test his acquirements in the various branches of professional knowledge. The SECOND, after having passed through a course of special instruction in the Army Medical School, to test his knowledge of the special duties of an Army Medical Officer; and the THIRD, previous to his promotion, to ascertain that he has kept pace with the progress of Medical Science.

ARMY MEDICAL SCHOOL, MILITARY HOSPITAL, NETLEY.

*President of the Senate.*—The Director-General of the Army Medical Department.

*Other Members of the Senate.*—The Physician to the Council for India; the Principal Medical Officer at Netley; the Professors of the Army Medical School.

*Professors.*—Deputy Inspector-General T. Longmore, Professor of Military Surgery; Deputy Inspector-General W. C. Maclean, M.D., Professor of Military Medicine; E. A. Parkes, M.D., F.R.S., Professor of Military Hygiène; W. Aitken, M.D., Professor of Pathology.

All gentlemen who have been successful in the competitive examinations, held twice a year (February and August) at Chelsea, for appointments in the medical service of the Army, attend subsequently at Netley a course of practical instruction in the duties they will have to perform in the Army. The course lasts four months, after which an examination is held to ascertain the progress made by each candidate. The lectures on Military Surgery include gunshot and other wounds; arrangements for the transport of wounded; duties of Army Surgeons in the field, during sieges, on transports, &c.; and other special subjects. Those on Military Medicine refer to the tropical and other diseases of the British possessions and colonies, and to the losses by disease in peace and war at home and abroad. The lectures on Hygiène comprise all duties relating to the examination of water, air, food, clothing, &c., of the soldier; his duties and exercise, and the circumstances affecting his health; the subjects of meteorology, statistics, and prevention of the principal diseases met with in the Army, on home or foreign service. The lectures on Pathology have reference principally to the scientific examination of tropical diseases, and of other complaints which the Army surgeon is especially called on to investigate. The candidates also attend the wards of the Hospital to study the diseases of invalids under the Professors of Medicine and Surgery, the system of recruiting, and the modes of keeping the Army medical returns and records. They are also called on to make post-mortem examinations, to operate on the dead body, and pass through courses of practical instruction in the laboratory on the modes of recognising the qualities and adulterations of food, and in the microscopic room on the modes of microscopic examination of morbid tissues and of adulterations of food, &c. During his service at Netley, each candidate receives an allowance of 5*s.* per diem, and 2*s.* per diem for lodging money, if quarters are not found him. He wears uniform, attends the medical staff mess, and is under the usual military discipline.

# MEDICAL DEPARTMENT OF THE NAVY.

*Admiralty Office, Somerset House, London, W.C.*

*Director-General*—Dr. Bryson, C.B., F.R.S. *Med. Off. at Somerset House*—Dr. A. E. Mackay.

The following warrant was issued 30th May, 1859:—

1. There shall, in future, be four grades of Medical Officers, viz.:—
   1. Inspector-General of Hospitals and Fleets.
   2. Deputy Inspector-General of Hospitals and Fleets.
   3. Surgeon, who, after twenty years' service on full-pay, ten of which, in the rank of Surgeon, shall be styled Staff-Surgeon.
   4. Assistant Surgeon.

2. No candidate shall be admitted to the examination for a Commission in the Medical Department of the Royal Navy who does not possess such a diploma as would qualify a civilian to practise medicine and surgery; and no such candidate shall receive a commission as Assistant-Surgeon until he shall have satisfactorily passed an examination in naval surgery and hygiène before a board of examiners appointed by the Lords Commissioners of the Admiralty.

3. No Assistant-Surgeon shall be eligible for promotion to the rank of Surgeon until he shall have passed such examination as the Lords Commissioners of the Admiralty may require; and shall have served on full-pay, with the commission of Assistant-Surgeon, for five years, of which two, at least, shall have been passed on board one or more of Her Majesty's sea-going ships.

4. No Surgeon shall be eligible for promotion to the rank of Deputy Inspector-General of Hospitals and Fleets until he shall have served ten years in the Royal Navy, on full-pay, of which three at least must have been passed in one of Her Majesty's ships, on some one or more foreign stations, with the rank of Surgeon.

5. No Deputy Inspector-General of Hospitals and Fleets shall be eligible for promotion to the rank of Inspector-General until he shall have served five years at home, or three years abroad, in the rank of Deputy Inspector-General.

In cases of emergency, however, or when the good of Her Majesty's service may render such alteration desirable, it will be competent for the Lords Commissioners of the Admiralty to shorten the several periods of service above-mentioned, in such manner as they shall deem fit and expedient.

6. The rates of full-pay for the Medical Officers of the Royal Navy will in future be in accordance with the following schedule:—

| Assistant-Surgeon | — | — | — | — | 0 10 0 | 0 8 0 | 0 6 0 |

8. With a view to maintain the efficiency of the service, all Medical Officers, with the ranks of Staff-Surgeon, Surgeon, and Assistant-Surgeon, will be placed on the Retired List, when they shall have attained the age of 60 years. Deputy Inspectors-General will be placed on such Retired List when they shall have attained the age of 65 years, and Inspectors-General when they shall have attained the age of 70 years. Officers thus superannuated will receive the rates of half-pay mentioned in the preceding schedule.

9. The relative ranks of the Medical Officers of the Royal Navy will be as follows:—An Assistant-Surgeon will rank as a Lieutenant in the Army, according to the date of his Commission, and after six years' service on full-pay, as a Captain in the Army, according to the date of the completion of such service. A Surgeon will rank as Major in the Army, according to the date of his Commission, and a Staff-Surgeon as a Lieutenant-Colonel, but junior of that rank. A Deputy Inspector-General of Hospitals and Fleets will rank as Lieutenant-Colonel according to the date of his Commission, and after five years' service on full pay as Deputy Inspector-General, will rank as Colonel, according to the date of completion of such service. An Inspector-General of Hospitals and Fleets will rank as Brigadier-General, according to the date of his Commission, and after three years' service on full-pay as Inspector-General will rank as Major-General, according to the date of completion of such service. Provided always, that no Medical Officer, while borne on the books of one of Her Majesty's ships, or employed in establishments on shore, shall be deemed superior in rank to the Officer appointed to command such ship or establishment; but such Commanding Officer shall, under all circumstances, be held to be superior in rank and precedence to every officer under his command.

10. When Medical officers of the Navy may be employed on shore, on joint service with Her Majesty's Land Forces, such relative rank will carry with it all precedence and advantages attaching to the rank with which it corresponds, and shall regulate the choice of quarters, rates of lodging money, servants, forage, fuel and light, or allowances in their stead; but Medical Officers serving in the Fleet, notwithstanding the relative rank thus conferred upon them, will, in all such details, and also in all matters relating to the duties of the Fleet, and to the discipline and interior economy of Her Majesty's ships, be subject, as heretofore, to the authority of any executive officer of the Military Branch, while on duty, under the General Regulations which may from time to time be prescribed by the Lords Commissioners of the Admiralty.

* Or on promotion, should these periods of service not have been already completed.

11. Medical Officers will share Prize Money according to the Proclamation or Proclamations which may be in force at the time being, for regulating the distribution of the proceeds of Prizes in the Royal Navy.

12. Medical Officers will be entitled to the same allowances on account of wounds and injuries received in action as combatant officers holding the same relative ranks.

13. The Families of Medical Officers will in like manner be entitled to the same allowances as granted to the families of combatant officers holding the same relative ranks.

14. Medical Officers will be held entitled to the same honours as other Officers of the Royal Navy of equal relative rank.

15. A Medical Officer retiring, after a full-pay service of twenty-five years, may, in cases of distinguished service, receive a step of honorary rank, but without increase of half-pay.

16. Good Service Pensions will be awarded to the most meritorious Medical Officers of the Royal Navy, under such regulations as shall from time to time be determined upon.

17. Four of the most meritorious Medical Officers of the Royal Navy will be named "Honorary Physicians," and four "Honorary Surgeons," to Her Majesty.

*By Command of their Lordships,*

H. CORRY.

# PUBLIC VACCINATING STATIONS.

In order to provide for the granting of those Special Certificates of Proficiency in Vaccination, which, under the Regulations of the Privy Council, are required to be part of the Medical Qualification for entering into contracts for the performance of Public Vaccination, or for acting as Deputy to a Contractor, the following arrangements are made:—

1. The Vaccinating-Stations, enumerated in the subjoined list, are open, under conditions appointed by the Privy Council, for the purposes of Teaching and Examination;

2. The Public Vaccinators officiating at these Stations are authorized by the Privy Council to give the required Certificates of Proficiency in Vaccination to persons whom they have sufficiently instructed therein; and

3. The Public Vaccinators, whose names in the subjoined list are printed in *Italic letters*, are also authorized to give such Certificates, after satisfactory Examination, to persons whom they have not themselves instructed.

# BRITISH EMPIRE MUTUAL LIFE ASSURANCE COMPANY,

## 32, NEW BRIDGE-STREET, LONDON, E.C.

**ESTABLISHED IN 1847.**

**ANNUAL INCOME EXCEEDS £80,000.**

This Company transacts Life Assurance business in all its branches. It is founded on the

**PURELY MUTUAL PRINCIPLE.**

All policy-holders for the whole term of life on the participating scale, are members, and possess an equality of rights.

**INVALID LIVES.**

By a plan recently adopted, proposers, whose lives are not deemed first class, secure the full benefit o their Policies to their representatives, without extra payment, unless they should die prematurely. In fact, Invalid Lives will only be treated as such, should experience prove that they were actually defective.

**PROFITS**

Are divided triennially, and may be applied in reduction of future premiums, added to Policy, or received in cash, at the option of the assured.

THE FIFTH TRIENNIAL DIVISION GIVES A CASH BONUS OF 24 PER CENT.

## Annual Income, over £180,000, yearly increasing at the rate of nearly £25,000.

The above Company offers numerous advantages and every facility to persons about effecting Assurances. Eighty per cent. of the profits are divided amongst the Policy-holders; and, by the peculiarly equitable manner adopted in their division, may be applied to render a Policy payable during the lifetime of the assured, no extra premium being charged.

Policies absolutely indisputable and unchallengeable after Five Years.

The large Reserved Funds, and the Capital subscribed by a large and respectable body of Shareholders (amounting to nearly three quarters of a million of money), combined with the rapidly increasing income of the Company, afford the most perfect security to Assurers.

Declined or Diseased Lives assured at equitable rates.

Qualified Medical Attendants who are named by proposers to this Association are consulted as the Medical Advisers of the Directors, by whom all Medical Fees are discharged, according to the following liberal scale:—For all proposals on single lives of £500 and upwards, and where the Medical Examiner is also the Medical Attendant, Two Guineas; under £500, One Guinea. When the Medical Examiner is not the Medical Attendant, the fee on all single life proposals will be One Guinea.

The Directors of this Company first introduced the equitable system of remunerating the members of the Medical Profession for their services in connexion with Life Assurance.

Every description of Life Assurance transacted; terms for which, with detailed Prospectuses and every information, may be had on application to

(A LIST OF THE PROPRIETORS PERIODICALLY ENROLLED IN THE HIGH COURT OF CHANCERY.)

## LIFE DEPARTMENT.

This Institution adopts both the **Proprietary** and **Mutual** systems of Life Assurance, and the Policy-holders IN BOTH BRANCHES are fully protected by the *large Subscribed Capital* of the Company.

In the **Proprietary Branch,** Assurances are granted at the Lowest Rates of Premium consistent with the security of the Establishment. Such assurances may be effected in a great variety of ways, to suit the circumstances and conveniences of the Assured. Among others, where the Policy is made payable "On the Assured attaining **any given** age, **or at Death,** if that event should happen previously," is particularly deserving of attention.

In the **Mutual Branch** of this Institution, the Policy-holders are entitled to the **Entire Profits** of the Branch, which are divided at the expiration of every fifth year. These Profits may be applied either in Additions to the Sums Assured, or in temporary Allowances upon the Yearly Premiums payable until the ensuing period of division.

Prospective Bonuses are at each division set apart for those Policy-holders who are not immediately entitled to participate in the profits, but who will have paid five yearly premiums before the next ensuing division; thus affording to the Assured all the advantages of an **Annual Division** of Profits.

Assurances may be effected on Lives, Survivorships, &c. &c., as stated in the Society's Prospectus, to any amount not exceeding £5000.

The whole available Bonus is the sole property of Life Assurers, no part whatever is taken from it to be shared amongst proprietors. The greatest advantage to Life Assurers necessarily results from this principle of Mutual Assurance. At the end of every fifth year profits are equitably apportioned amongst existing Life Assurances. By means of Bonus upwards of One Hundred of the earlier Life Assurances have been relieved altogether from the payment of Annual Premiums, and additions made to sums assured. Nearly £150,000 was divided amongst Life Assurers in May, 1861.

The Fee to the Medical Referees is paid by the Society.

This Society is strictly confined to the Clergy of the Church of England and of the Episcopal Church of Scotland, their wives and families, and the near relations of themselves and wives, and is distinguished from other institutions by the title of "THE CLERGY MUTUAL ASSURANCE SOCIETY."

## REPORT read at the FORTY-FIRST ANNUAL GENERAL MEETING, held on the 24th Nov., 1865.

The Directors have much pleasure in being able to report that the financial year which ended on the 30th June last was one of decided progress.

Within that period **498** New Policies were issued, covering Assurances on Life for **£822,972**, and producing in New Annual Premiums the sum of **£11,229**.

These items are all considerably in advance of those of the previous twelve months; and it is highly satisfactory to add that the Sums Assured, and the Premiums they have yielded, represent the largest amount of new business that has ever been obtained by the Society in a single year. The average of the Policies issued sufficiently indicates the character of the connexion from which they have been derived.

This result has not been accomplished by any departure from that prudent policy, by which risks judged likely to prove unremunerative have always been carefully avoided, nor by an inordinate expenditure, which no amount of business could justify or repay.

The total Receipts of the year amounted to **£207,047**; the Claims by Death were £133,520; and, after the payment of these and all other demands, **£44,943** was added to the Assurance Fund, which was thereby augmented to **£1,491,543**.

It remains only to add, that on the 30th June, 1866, the current Quinquennial Period will be completed, and that the customary investigation will then be made with a view to the declaration, in January, 1867, of the Eighth Bonus. All participating Policies in existence at the former date will share in such Bonus, so that persons who complete Assurances before the 30th June next, will be benefited by the Division although one Premium only will have been paid. The Directors have thought it right to advert to this early participation in profits, on account of the manifest advantage which it offers to persons intending to assure.

**Whole-World Policies** are issued, *at the Ordinary Home Rates of Premium*, to all persons who, at the time of assuring, have no intention or prospect of proceeding beyond the limits of Europe.

## SECURITY COMBINED WITH OTHER ADVANTAGES.

The **Sum Assured** now exceeds £3,215,000.

The **Annual Income** is upwards of £140,000.

The **Funds Invested** amount to £1,014,000.

The **Bonuses** added to Policies amount to £567,000.

The **Sums Paid** to the Representatives of deceased Members exceed £1,550,000; *and the Company has not in a single instance been engaged in litigation with respect to the payment of the claims.*

The **Profits** are divided *quinquennially*—**Five-Sixths** being allotted to the Assured, and the remaining One-sixth added to the Guarantee Fund, and permanently reserved as a Security to the Assured. The next Division will be in 1870.

**Annual Cash Bonuses** are allotted to Policies that become Claims any time after three years' Premiums have been paid.

The **Rates of Premium** will be found very advantageous, especially to Young Assurers.

The **Policy Stamp** and **Medical Fees** are paid by the Company.

The **Usual Commission** allowed to Solicitors and others introducing Assurances at the Head Office.

ACTUARY AND SECRETARY—Charles Jellicoe, Esq.

The Business of the Company comprises Assurances on Lives and Survivorships, Granting of Contingent Annuities, Loans of Money on Mortgage, &c.

The realized Assets of this Company amount to about Two Millions sterling.

The Annual Income is about Three Hundred and Ninety Thousand Pounds.

The number of existing Policies is upwards of Sixteen Thousand.

The total Amount Assured exceeds Nine Million Six Hundred Thousand Pounds.

The Divisions of Surplus are quinquennial, and the whole Surplus (less twenty per cent. only) is distributed amongst the Assured.

At the last Division of Surplus, the additions to the Sums Assured, under Policies effected upon the Participating Scale, ranged, according to the age of the life assured, from 20 to 70 per cent. of the Premiums paid since 1857.

The Premiums required, although moderate, entitle the Assured to 80 per cent. of the Quinquennial Surplus.

The Lives assured are permitted, in time of peace, without extra charge, to reside in any Country (Australia and California excepted) north of 33 degrees north latitude, or south of 33 degrees south latitude, or to pass by sea (not being seafaring persons by profession) between any places lying north of 33 degrees north latitude, or lying south of 33 degrees south latitude.

All Policy Stamps and Medical Fees required on effecting Assurances are paid by the Company.

By recent enactments, persons are exempt, under certain restrictions, from Income Tax, as respects so much of their income as they may devote to Assurances on Lives.

The Annual Reports of the Company's state and progress, Prospectuses, and Forms, may be had, or will be sent, post free, on application at the Office, or to any of the Company's Agents.

The NEW BUSINESS of 1864 comprised 190 Policies, insuring the sum of £308,645; and the Premiums received thereon amounted to £10,666 4s. 4d.

The total INCOME of 1864 was £93,389 and the total OUTGOINGS £46,048. The difference, £47,321, or more than 50 per cent. of the whole Income, being added to the Assets, as the result of the year's transactions. The amount of the ASSETS on the 31st December, 1864, was £443,966.

The EXPENSES of MANAGEMENT are now less than *Four per cent.* on the INCOME.

The PREMIUMS are calculated for every half-year of Age.

The realized PROFITS are ascertained every Five Years; and NINE-TENTHS of the whole are divided among the Assured. As considerably more than One-tenth of the Profits is derived from Policies which do not participate in the Profits, it will be seen that the Assured have greater advantages in this Society than if they formed a Mutual Insurance Company, dividing among themselves the whole of the Profits derived from their own Policies.

At the FOURTH QUINQUENNIAL DIVISION of Profits, to the 31st December, 1864, the sum of £62,961, was divided among the Assured holding Policies for £1,339,608; the additions thus made to the sums assured amounting to £112,000.

The Conditions of the Policies allow persons, whose lives are insured to reside or travel in any part of the world distant more than 33° from the Equator.

Policies in the hands of third parties are not vitiated by suicide, or by the life assured transgressing the stipulated limits.

The Business of the Society includes the Purchase and the Granting of LOANS upon the security of Life Interests and Reversions; also the Granting of IMMEDIATE ANNUITIES.

The ANNUAL REPORTS of the Directors are regularly printed, with full accounts of the Receipts and Expenditure, and may be obtained by written or personal application at the Office.

THE EQUITABLE, established in 1762, was one of the earliest Offices on the Mutual principle.

The entire profits are divisible among its members, no portion of the same being diverted either for dividends on shares, as in "proprietary" offices, or for "commission" to agents.

Since its establishment in the year 1762 it has paid £17,000,000 in claims, and £15,900,000 for bonuses on the same.

The Invested Capital on the 31st of December, 1864, exceeded £4,500,000 sterling.

The Reserve at the last rest, in December, 1859, exceeded £700,000, as a basis for future divisions.

Under the bye-law of the 19th of December, 1816, the oldest 5000 Policies are admitted to participation in the bonuses.

New Assurers in the current year (1866) will be placed among that number after payment of their first premium, and will become entitled to a rateable share in the bonus to be made in December, 1869, on payment of the Annual Premium in 1871.

SURRENDER OF POLICIES.—The full value is paid on surrender, without any deduction.

LOANS ON POLICIES.—The Directors will make advances on deposit of the Policies.

## PLAN OF THE GREAT BRITAIN MUTUAL LIFE ASSURANCE SOCIETY.

This Society is established on the tried and approved principle of Mutual Assurance. The Funds are accumulated for the exclusive benefit of the Members under their own immediate superintendence and control. The Profits are divided Annually, and applied in reduction of the current Premiums.

The Members of this Society consist of two CLASSES; one Class comprising Policy-holders *who pay the full amount of Premium during the first five years*, and then become entitled to participate in the Profits during the remainder of their respective lives; the other Class comprising Policy-holders *who pay half the amount of Premium only during the first five years*, and thenceforth pay the whole amount during the ensuing five years; after which period they become entitled to participate in the Profits equally with other Members.

Every Member assured for £500 is entitled, after payment of one whole Annual Premium, to attend and vote at all General Meetings. Members assured for larger amounts are entitled to one vote for every £500 assured.

No claim can be litigated or disputed except with the concurrence of the Members present at a General Meeting, specially convened on the occasion.

The Directors and Auditors consist of Members assured to the extent of £1000. The Auditors and three of the Directors vacate their offices annually, but are eligible for re-election by the Members.

*Extensive Tables of Non-participation Rates have been constructed for the accommodation of different classes of Policy-holders.*

Applications for Agencies may be made, and every requisite information relative to this Society, and the mode of effecting Assurances, obtained on application to

## LIFE DEPARTMENT.

The important advantages offered by the Plan and Constitution of this Society are:—

(1) Insurers have the benefit of a large Accumulated Fund, the entire income of which (*there being no Shareholders*) is divisible amongst the Insured.
(2) The Profits are divided *annually* amongst all Members of Five or more Years' standing.
(3) No charge is made for Entrance Money, or for Policy Stamps.
(4) Premiums may be made payable, if desired, Half-Yearly.

It will be seen from the Table below that the Profits have admitted of an abatement of Premium, for the current year, of 55 per cent.

The following Table exhibits the Abatements of Premium that have been made to Members of Five or more Years' standing, in each year from 1844 to 1864, inclusive:—

| Years of Division. | Rate of Abatement. | Years of Division. | Rate of Abatement. | Years of Division. | Rate of Abatement. |
|---|---|---|---|---|---|
| 1844 | £45 per cent. | 1851 | £52½ per cent. | 1858 | £52½ per cent. |
| 1845 | 50 ,, | 1852 | 52½ ,, | 1859 | 52½ ,, |
| 1846 | 50 ,, | 1853 | 52½ ,, | 1860 | 52½ ,, |
| 1847 | 50 ,, | 1854 | 52½ ,, | 1861 | 52½ ,, |
| 1848 | 50 ,, | 1855 | 52½ ,, | 1862 | 52½ ,, |
| 1849 | 52½ ,, | 1856 | 52½ ,, | 1863 | 52½ ,, |
| 1850 | 52½ ,, | 1857 | 52½ ,, | 1864 | 55 ,, |
| | | | | 1865 | 55 ,, |

Thus a Premium of £100 upon a Policy taken out before 24th June, 1860, has been reduced for the year 1865 to £45.

FIRE DEPARTMENT.—Insurances are effected at the usual rates.

THE ASSOCIATION, founded in 1838, and incorporated by Royal Charter and Act of Parliament, is one of the largest and most successful among the Life Assurance Offices, and possesses, in its extensive business, an element of safety and permanence not contained in smaller Institutions.

The Policy-holders are not only free from the responsibilities of Partnership, but the Sums Assured are guaranteed by a Subscribed Capital, in addition to the large and constantly increasing Funds.

## ASSURERS HAVE THE CHOICE OF TWO SCHEMES,

EACH OF WHICH HAS ITS PECULIAR AND DISTINCTIVE ADVANTAGES.

*Class B., or Unconditional Life Assurance*, namely, Life Assurance almost without any conditions or restrictions. This class is, however, not intended for persons residing in, or likely to proceed to unhealthy climates, or who may be exposed to unusual hazard. The Profits allocated to the Policies under this Scheme will be Bonus Additions to the Sums assured. The Divisions of Profit will be made every five years, the first in 1865; and the Lists of Policies will be closed annually on 5th December.

*Class A., or Ordinary Life Assurance*, namely, Life Assurance with some at least of the ordinary Conditions and Restrictions in Residence and Occupation. The Association's conditions are, however, much more liberal than those of many other Offices. This scheme is to be distinguished from others, also, by the favourable mode of allocating profits *annually* in cash amongst the Policy-holders during their lives—the annual payments for the policies being thereby considerably reduced. The Lists are closed annually on 5th April.

## LIFE DEPARTMENT.

This Corporation has granted Assurances on Lives for nearly a Century and a Half, having issued its first Policy on the 7th June, 1721.

Two-thirds of the entire Profits, **without any deduction for expenses of management**, are allotted to the Assured. This arrangement will be found to be more advantageous to the Policy-holders than an apparently larger proportion of the Profits, subject to the expenses of management.

Assurances may be effected without Participation in Profits, at low rates of Premium, or with Participation in Profits, upon either of the following plans, viz.—

*By an Annual Abatement of Premium on Policies of Five Years' standing and upwards.* Upon this plan the abatement from the Original Premium for the Year 1865, was at the rate of 40 per cent.

*By appropriating the Profits at the end of every Five Years, either in increase of the Sum Assured, or as an immediate Cash payment.*

Examples of the Bonus additions to the Sum Assured on Policies of Fifteen Years' standing, are subjoined.

| Age when Assured. | Sum Assured. | Bonus Added. |
|---|---|---|
| | £ | £ s. d. |
| 27 | 1000 | 209 10 0 |
| 31 | 1000 | 223 5 0 |

# NORWICH UNION FIRE OFFICE.

**INSTITUTED 1797.**

OFFICE:—29, FLEET STREET, E.C.

Secretary.—Sir Samuel Bignold. | London Agent.—C. J. Bunyon, Esq.

Insurances are granted by this Society on buildings, goods, merchandise, and effects, ships in port, harbour, or dock, from loss or damage by fire in any part of the United Kingdom of Great Britain and Ireland.

It is provided by the constitution of the Society that the *Insured shall be free from all responsibility*: and to guarantee the engagements of the office, a fund of £550,000 has been subscribed by a numerous and opulent Proprietary, which fund has been further increased by the accumulation of a Reserve Fund, now exceeding £100,000, in addition to the ordinary reserves for the current liabilities of the Office.

## THE BONUS SYSTEM.

The full benefit of the reduction of duty to 1s. 6d. per cent. is given to Insurers effecting Policies with this Company. By this reduction, and the **Bonus System** of the Norwich Union, the cost of Insurance is reduced to a minimum amount.

EXAMPLES OF PREMIUMS REDUCED BY THIS BONUS.

| No. of Policy. | Sum Assured. | Annual Premium. | Reduced Premium. for 1864. |
|---|---|---|---|
| | £ | £ s. d. | £ s. d. |
| 441,411 | 92,540 | 222 4 4 | 120 19 2 |
| 450,156 | 12,000 | 68 0 0 | 35 0 0 |

| 506,957 | 5000 | 7 10 0 | 4 6 4 |

**The Rates of Premium are in no case higher** than those charged by the other principal Offices giving no Bonus to their Insurers.

No charge is made for the Policy or Stamp when the Insurance exceeds £200, or for Insurances transferred from other offices.

**THE BUSINESS OF THE COMPANY EXCEEDS SEVENTY MILLIONS,**

And, owing to the liberality with which its engagements have been performed, is rapidly increasing. The Duty paid to Government for the year 1863 was **£84,152 11s. 9d.**; the amount insured on Farming Stock was **£10,203,272.**

The Norwich Union Fire Office is the **largest Office** making a return to its insurers.

UPON THE PRINCIPLE OF MUTUAL ASSURANCE.

OFFICE:—29, FLEET STREET, E.C.

Secretary.—Sir Samuel Bignold. | Actuary.—C. J. Bunyon, Esq.

**The whole of the profits belong to the Assured.**

The Accumulations exceed **£2,000,000.**

The income of the Society exceeds **£250,000.**

The amount assured is upwards of **£5,570,000.**

Since its commencement, **35,100** Policies have been issued, and **£6,565,358** paid to the representatives of **7820** deceased Members.

The Bonuses may be applied at the option of the Assured in reduction of the future Annual Premium, or their cash value received.

The Rates of Premium are **10 per cent.** less than those of most offices—a benefit in itself equivalent to an Annual Bonus. One-half of the first five Annual Premiums may remain as a permanent charge upon Policies effected for the whole duration of life.

Annuities and special risks are undertaken upon favourable terms.

This Society is entirely distinct from the Norwich Union Fire Office. The aggregate Annual Income of the two Societies is nearly **Half a Million Sterling.**

**AT the ANNUAL MEETING of PROPRIETORS, held on the 26th October, 1865, BERNARD HALL, Esq., Chairman of the Company, in the Chair, the DIRECTORS' REPORT for the year stated:—**

| | |
|---|---|
| That the Fire Premiums for the year amounted to - - | £115,285 |
| That 529 Life Polices were issued insuring - - - - | 304,777 |
| That the New Life Premiums amounted to - - - - | 8,058 |
| That the Life Income was - - - - - - - | 27,756 |

*And that upwards of fifty-seven per cent. of the entire Net Premiums had been added to the Life Fund.*

| | |
|---|---|
| That the Subscribed Capital amounted to - - - - | £1,883,220 |
| That the Paid-up Capital was - - - - - - | 188,322 |
| And that the Reserve Funds amount to - - - - | 147,638 |

**THE LIFE BONUS of this Company averaged 46 per cent. of the Premiums paid, in some cases rising to £65, 70, and even 75 per cent. Substantial benefits have therefore been conferred on its Assurers, and as the Life Liabilities are valued on the principle of net Premiums, assuming only 3 per cent. interest—(*the outside expenses chargeable to the Life Department for the General Management of the Company being specially limited by the Deed of Settlement to* 10 *per cent. of the net Life income*)—there is every reason to expect equally good Bonuses in the future.**

FIRE, LIFE, and MARINE ASSURANCES may be effected with this Corporation on advantageous terms.

The Duty on Fire Assurances has been reduced to the uniform rate of 1s. 6d. per cent. per annum.

No charge is made by this Corporation for Fire Policy or Stamp, however small the Assurance may be.

Life Assurances are granted with or without participation in Profits: in the latter case at reduced rates of Premium.

The following Table shows the BONUSES declared up to 31st of December, 1860, on British Participating Policies of Nineteen years' standing, for the sum of £1000 each.

| Age. when Assured. | Total Addition up to 1860. | Per Cent. per Annum on the Sum Assured. | Age when Assured. | Total Addition up to 1860. | Per Cent. per Annum on the Sum Assured. |

Equivalent reductions have been made in the Annual Premiums payable by persons who preferred that form of Bonus. The Divisions of Profit take place every Five years.

The Corporation bear the cost of Policy Stamps and Medical Fees.

Any sum not exceeding £15,000 may be assured on the same Life.

This Corporation affords to the Assured a liberal participation in Profits, with exemption under Royal Charter from the liabilities of partnership;—the guarantee of a large invested Capital-Stock, and all the advantages of modern practice, with the security of an Office whose resources have been tested by the experience of NEARLY A CENTURY AND A HALF.

*** *The Medical Attendants of Persons proposed for Assurance are always consulted by the Corporation, and remunerated for their Reports. This Office was the first among the leading Companies to adopt the practice.*

# SCOTTISH PROVIDENT INSTITUTION,

**ESTABLISHED 1837.**

HEAD OFFICE—6, ST. ANDREW-SQUARE, EDINBURGH.
LONDON OFFICE—18, KING WILLIAM-STREET, E.C.

**Its Advantages**, as compared with other Offices, are—

*A greatly larger original Assurance at most ages for the same Premium, and eventually, to good lives, as large additions as where the ordinary high rate of Premium is charged.*

For the same yearly sum as large an Assurance may be secured from the first as can be looked for elsewhere only after many years' accumulation of Bonuses. Thus, a Policy for £1200 or £1250 may generally be had for the Premium which, in the other Mutual or Participating Offices, would secure £1000 only.

The Whole Profits, moreover, are secured to the Policy-holders themselves, and are divided on a system which is at once safe, equitable, and peculiarly favourable to good lives, no share being given to those by whose early death there is a loss (instead of a profit) to the common fund. In this way Policies for £1000 have already been increased to £1300, £1500, and in some instances to upwards of £1700.

The class of Participants now embraces, with few exceptions, all who entered in the earlier years, with many more recent entrants paying a higher rate of Premium.

**The subsisting Assurances** exceed **£4,800,000.**

**The Realized Fund,** arising entirely from accumulated Premiums, is upwards of **£1,000,000,** the whole of which is invested in unexceptionable securities in this country.

| Amount of Assurances accepted, and for which Policies were issued . . . . . | 805,980 6 6 |
| Annual Premiums on New Policies . . . . . | 25,396 16 11 |

**The Annual Revenue is now upwards of Half a Million Sterling.**

**THE ACCUMULATED FUND IS UPWARDS OF THREE MILLIONS.**

THE POLICIES OF THE STANDARD LIFE ASSURANCE COMPANY ARE MORE VALUABLE THAN ORDINARY POLICIES, inasmuch as they are free from extra Premiums in the case of Foreign residence, when the Directors are satisfied there is no intention or prospect on the part of the Assured to reside abroad. They are also free from other restrictive clauses.

REVIVAL OF POLICIES.—Policies not renewed within the days of grace do not become absolutely forfeited, but may be revived on certain conditions, any time within thirteen months from the date of the premium falling due.

SURRENDER VALUES.—Liberal allowances made for surrender of Assurances under the Profit Scheme, at any time after payment of one annual premium.

### FIRE DEPARTMENT.

The Directors are ready to receive Proposals for insuring Property generally, in Great Britain and Ireland, at equitable rates, and according to the risks to be protected.

### LIFE DEPARTMENT.

FOUR-FIFTHS, or EIGHTY PER CENT., of the Office Profits are appropriated to the benefit of the Assured every five years, thus giving them nearly all the advantages of a Mutual Company, but without any risk or liability whatever, which in Mutual Offices is borne exclusively by the Assured, but in the UNION by a large and influential Proprietary.

At the last investigation into the financial position of the Life Department of the Union Society, it appeared that, after providing for every liability, and making an ample reserve for future expenses and profits, there remained a sum available for division, amongst the Holders of Life Policies, sufficient to give a Bonus addition of **Two Pounds per Cent. per Annum** on the sum assured for the past seven years.

The UNION ASSURANCE COMPANY will bear a most favourable comparison with other Offices, it having had an experience of upwards of a century and a half; and the Directors with confidence call attention to the following figures, illustrating, as they do, the success which has attended the Society since its establishment, and the unbounded security which it offers to all the Assured:—

| | |
|---|---|
| The Capital of the Society actually paid up, and invested, with its accumulations, in Government and other securities, exceeds . | £500,000 |
| The Accumulated Life Premiums, also invested as above . | 588,814 |
| The Annual Income of the Life Department alone exceeds . | 110,000 |
| And that of the Fire Department. . . . . | 60,000 |
| Making the Income from all sources over . . | £170,000 |

ARTHUR T. PRATT BARLOW, Esq. | EDWARD B. HARDISTY, Esq.
ALBERT MOTT, Esq.

**Medical Officer**—CAMPBELL DE MORGAN, Esq., F.R.S., 51, Upper Seymour-street, W.

This Association offers to Assurers the security of an ample Guaranteed Capital, in addition to a large Fund accumulated by the investment of the Premiums received.

The Rates of Premium are moderate and the conditions of Assurance liberal.

*Eighty per Cent.* of the Profits of the Association are divided every five years among the holders of Policies in the Participating Class of Assurance.

The Profits may either be received in Cash, or a Bonus added to the Policy, or a reduction made in all future Annual Premiums.

When an Assurance is effected for the whole of Life, and the Age does not exceed 60, one-half of the Annual Premiums for the first Five Years may remain on Credit, at 5 per cent. Interest, to be paid off at the expiration of the Five Years, or remain as a Charge upon the Policy, as may be agreed upon.

The Stamp Duty on Life Assurance Policies is paid by the Office.

Immediate, Deferred, and Survivorship Annuities granted upon favourable terms.

Every information on the subject of Life Assurance can be obtained on application at the office, or to any of its Agents.

# ST. MARY'S HOSPITAL MEDICAL SCHOOL.

At this Hospital the Medical Appointments are open to the Pupils without additional fee. Three Resident Medical Officers are appointed for twelve months, and one, the Obstetric Officer, for six months, all of whom live free of every expense in the Hospital. The advantages of these Appointments far exceed as many Scholarships of Fifty Pounds each. A Resident Registrar, with board, lodging, and a salary of £100 a year, is appointed for two years, preference being given to past House-Surgeons and Perpetual Pupils. There are also four non-Resident Medical Officers who are appointed for six months, and assist the Physicians and Surgeons in charge of the Out-patients.

All the above Offices are awarded after Competitive Examination, preference being given to the qualified Perpetual Pupils. Students are required to perform the duties of Clinical Clerk and Dresser during the last two years of their curriculum.

Students enjoy the advantages of a Reading-room, Museum, and Lending Library.

There is accommodation in the Hospital for two Medical and six Surgical Resident Pupils as Dressers. Fee, £21, including Hospital Certificate.

Comfortable Lodgings may also be procured in the vicinity of the Hospital (five minutes' walk from Phœnix Park), of which a Registry is kept by the Resident Surgeon. Parents and Guardians have thus an opportunity of placing the Pupil under the supervision of one of the Surgeons or the Chaplain of the Hospital. Some of the Lecturers receive Pupils to reside in their families.

SPECIAL PRIVATE CLASSES are held for the preparation of Gentlemen for the Licensing Bodies and Competitive Examinations.

SENIOR MIDDLE and JUNIOR EXHIBITIONS will be awarded at the end of the Session to those whose answering exhibits general proficiency in every branch of their professional studies.

There will also be Prizes for the best reports of Cases which have occurred in the Hospital during the Session.

TWO MIDWIFERY ASSISTANTS are each year (month of November) selected by Competitive Examination—Salary, £30 per annum.

The DISSECTING ROOMS, which are most spacious and well ventilated, open on October 1st, for Practical Anatomy. The Lecturers and Demonstrators attend unremittingly throughout the day, to assist the Student in this most important pursuit, for which unusual facilities exist.

The Sessional Courses of Lectures commence on the first Monday in November.

Fees—Hospital, £7 7s.; Lectures, £3 3s.; each Course: perpetual to all Educational Courses required by Colleges, Halls, and Public Service, 75 Guineas, payable in two instalments.

Further particulars on application to Dr. TYNER, Resident Surgeon, at the Hospital; or to R. HAMILTON, M.D., Secretary, 120, Stephen's Green.

# MUNSTER HOUSE, FULHAM, S.W.

THREE MILES FROM HYDE-PARK CORNER,
AND TEN MINUTES' WALK FROM THE CHELSEA STATION, ON THE WEST LONDON EXTENSION RAILWAY.

## For the Care and Recovery of Nervous, Epileptic, and Insane Gentlemen.

PROPRIETOR—MR. CYRUS ALEXANDER ELLIOTT,

Late of Cowper House, Old Brompton.

**Established 1825, for Private Patients only.**

---

MUNSTER HOUSE, once the Hunting Seat of his Majesty King Charles II., contains twenty-nine rooms, and is situated on the road from London to Fulham, in the highest and healthiest part of the parish, and upon a gravelly soil. The pleasure-grounds are eight acres, entirely walled in, ornamented with fountains and gold-fish, statuary and rock-work, terraces and parterres, conservatories and summer-houses, and studded with noble trees and flowering shrubs; the whole offering most cheerful inducements for recreation, exercise, and amusement, which consists of a Bowling-green and Bowling-alley, Billiard and Reading-rooms, with Newspapers, Periodicals, and Musical Instruments, and a Library well stored with books.

This Establishment has the advantage of being near to London, and yet as rural as any of our country villages. It is easy of access for professional and other visits by the Putney Omnibuses every ten minutes from the Bank and London-bridge Railway Station. It is also within a short distance of the Victoria Station, Pimlico; the Wandsworth Station on the South Western; the Putney Station upon the Windsor lines of Railway. The Chelsea station, upon the West London Extension Railway, is within half a mile.

The Proprietor has a farm a short distance from London, where apartments can be obtained for the treatment of a case not admissible into an asylum.

Nurses and Attendants can be immediately obtained.

---

# EFFRA HALL, NEAR THE CHURCH, BRIXTON, S.

THREE MILES FROM THE BRIDGES,
AND FIVE MINUTES' WALK FROM THE BRIXTON STATION, ON THE LONDON, CHATHAM, AND DOVER LINE.

## For the Care and Recovery of Nervous, Epileptic, and Insane Ladies.

**Established at Cowper House, Old Brompton, 1825, for Private Female Patients only.**

PROPRIETOR—MR. CYRUS ALEXANDER ELLIOTT.

---

The House, surrounded by its Lawn, walled-in Gardens, Meadow, and Orchard of five acres, has long been admitted to be one of the most beautiful and secluded residences in this well-known healthy locality, proverbial for its pleasant walks and varied scenery. The greatest care has been taken to render this an Establishment for Recovery, and a Domestic Home rather than an Asylum in the general acceptation of the term; and being exclusively for the reception of Females, a greater extent of liberty and recreation is available than can possibly be obtained in houses where both sexes are admitted.

The Faculty and the friends of patients are invited to view, in Effra Hall and Munster House, the arrangements expressly made for the various forms of Mental Disease, which have by experience been found to assist so materially the Medical and Moral Treatment, by affording Classification to the Insane, Quietude to the Nervous, and to the Epileptic those accommodations which are so particularly required. The number of recoveries in these Establishments has not been exceeded by any others, and restraint is not nor has been used in any case.

Those patients whose cases permit are allowed (accompanied) to walk and ride into the country, and attend Divine Worship; and if change of air is considered requisite, will, by the request of their friends, be sent to the sea-coast. The Proprietor has a cottage always in readiness for a case not admissible into an asylum.

*Omnibuses pass Effra Hall every five minutes from the City and Oxford-street.*

The Brixton Station upon the London, Chatham, and Dover Railway is close to Effra Hall

The Terms are from ONE AND HALF GUINEA per week.

For Attendants, or other particulars, apply as above.

## THE MIDLAND RETREAT,

(NEAR MARYBOROUGH, ON THE GREAT SOUTHERN AND WESTERN RAILWAY),

For the reception and treatment of THE INSANE, and of persons suffering from a disturbed state of the Nervous System, under the direction of DR. JACOB, Physician to the Maryboro' District Lunatic Asylum (containing over 200 patients), Surgeon to the Queen's Co. Infirmary, &c.

This establishment consists of two separate and commodious residences—ANNE-BERRY, for the reception of Ladies; WOODVILLE, for Gentlemen. Each situated on extensive grounds, with large, well-enclosed gardens. They are handsome, well-furnished country residences, where the patients enjoy the comforts and indulgences of a private house. The inmates have been secured the benefit of the professional services of the parochial clergy. Restraint is not under any circumstances, practised, and the closest attention is paid to the medical treatment and general health of the patients. Evidence of the most conclusive character as to the efficient and superior manner in which the establishments are conducted, can be presented on reference to the Proprietor. There is daily communication, by means of public conveyances, with Dublin, Cork, Limerick, Waterford, Clonmel, Kilkenny, Carlow, Enniscorthy, Galway, Athlone, the North, &c.

## THE RETREAT, MOUNT STEAD, NEAR ILKLEY,

For the Care and Recovery of Persons afflicted with Disorders of the Mind, under the superintendence of Mr. SAMUEL SMITH, Sen. Surgeon to the General Infirmary at Leeds, and Dr. PYEMONT SMITH, Lecturer on Medical Jurisprudence at the Leeds School of Medicine.

Mount Stead is situated on elevated ground on the skirts of Rumbold's Moor, with an extensive view commanding some of the most beautiful scenery in the valley of the Wharfer. It possesses ample and commodious premises, extensive pleasure-grounds, 45 acres of plantations completely secluded from observation, the purest mountain air, an abundant supply of the Ilkley Spring waters, and every convenience for the treatment, cure, and care of those affected with mental disease.

Dr. Smith, with his family, resides at Mount Stead, and devotes his time to the care and comfort of his patients.

Apply for terms, &c., to Dr. P. SMITH, Mount Stead, near Leeds, Yorkshire; or to Mr. SMITH, 20, Park-place, Leeds.

# TO PHYSICIANS, SURGEONS, AND DRUGGISTS.

BROWN'S CANTHARIDINE BLISTERING TISSUE, prepared from pure Cantharidine. An elegant preparation, vesicating in much less time than the Emp. Lyttæ, P.L., easily applied and removed, and will not produce strangury, or troublesome after-sores. It has received the sanction and commendation of many of the most eminent Practitioners in the Kingdom. In Tin Cases, containing ten square feet, 6s. 6d.; and small Cases of five square feet, 3s. 6d. each.

BROWN'S TISSUE DRESSING, an elegant, economical, and cleanly substitute for all ointments as a dressing for Blisters, and may be called a companion to the above. In Tin Cases, containing twelve square feet, 1s. 6d. each.

*Extracts, and Editorial Note from the "New York Journal of Medicine."*

"March 1, 1850.

"BROWN'S CANTHARIDINE TISSUE.—It presents peculiar claims to our notice in the inflammatory diseases of females and children, in whom the unpleasant consequences which so often follow the application of the Emp. Cantharides are most apt to occur. We have found it a reliable and peculiarly safe vesicant, and from the many trials we have given it, we are satisfied that it deserves the attention of the Medical Profession.

"Accompanying this article is a very simple and neat dressing."

"I have prescribed the Cantharidine Tissue and Dressing (as prepared by you) for the last ten years. I have much satisfaction in bearing testimony to its effectual, mild, and safe action as a vesicant on the most delicate skin, and one of the best auxiliaries in the successful treatment of congestive and inflammatory diseases; the dressing has the advantage of being cleanly, agreeable, and curative in its application.

# PULVIS JACOBI *ver.* NEWBERY'S.

DISCOVERED A.D. 1746.

## MESSRS. NEWBERY,

*Whose great grandfather was partner with Dr. James* from the first introduction of this valuable Medicine, still prepare this Powder with the utmost care,

*From the only Recipe left by Dr. James and in his own Handwriting;*

And it has been sold at their house, in St. Paul's-churchyard, London, ever since its discovery in A.D. 1746. Packets, 2s. 9d.; ½ oz. Bottles, 4s. 6d.; and 1 oz. Bottles, 11s. each, with special allowance to the Profession.

It is a well-known fact that some parties have for many years prepared medicines and called them James' Powder; these have been SUBSTITUTED, in many cases, for the genuine, and practitioners have thereby been disappointed in the effect of their prescriptions, and led to believe that there is no longer any efficacy in the Powder, as formerly.

This is to assure the profession and the public, that *the genuine* has always been prepared in its originality and perfectness by Messrs. NEWBERY, from the only recipe extant, and that when it is used, *reliance can* ALWAYS *be placed upon the result.*

The prescribing "PULVIS JACOBI VER. NEWBERY'S" will aid in securing the administration of this, the True Powder.

## AERATED WATERS,

PREPARED BY BLAKE, SANDFORD, AND BLAKE,

**Pharmaceutical Chemists, 47, Piccadilly,**

THE ORIGINAL MAKERS OF POTASH WATER, LITHIA WATER, &c. &c.

---

Pure Water highly impregnated with Carbonic Acid.

Soda Water, containing 15 grains in each bottle.

Potash, 18 grains (Bicarbonate); Citrate of Potash, 30 grains.

Lithia, 2 grains and 5 grains, either by itself or in combination with Bicarbonate of Potash or Phosphate of Ammonia.

Ammonia, 10 grains (Sesquicarbonate).

Seltzer and Vichy Waters.

Aërated Mineral Acid Water, a tonic much approved by the Profession, and more refreshing than any effervescing beverage hitherto prepared.

---

## CITRATE OF LITHIA.

To meet the increasing employment of Lithia in the treatment of Gout, Gravel, &c., Messrs. BLAKE, SANDFORD, and BLAKE have prepared a Citrate of the Alkali, which is well worthy the attention of the Profession; the Carbonate being very insoluble, and difficult of administration, except in the form of an Aërated water. This Salt is extremely soluble, nearly tasteless, and easy of decomposition in the system. Dose from 5 grains upwards.

## LIQUOR OF PAREIRA BRAVA,

Prepared from Pareira Brava very carefully selected (much of the root ordinarily in the market being utterly useless). The dose is from 1 to 2 drachms, and it will be found to possess all the valuable properties of the Decoction.

# CHLORODYNE,

## THE ORIGINAL AND ONLY GENUINE,

*Discovered only by Dr. J. COLLIS BROWNE, M.R.C.S., late Army Med. Staff.*

---

EARL RUSSELL has graciously favoured J. T. DAVENPORT with the following extract of a Despatch from MR. W. WEBB, H.B.M.'s Consul at Manilla, dated Sept. 17, 1864.

"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be Chlorodyne, and with a small quantity given to me by Dr. Burke I have saved several lives."

DR. DURRANT, Physician to the East Suffolk and Ipswich Hospital, states, in the *British Medical Journal* of March 11th, 1865, with regard to the use of Chlorodyne in Diabetes—

"The dose which had been found to agree best, after many experimental trials, was 20 minims three times a day, in water or camphor mixture. I have prescribed it in several instances, and IN NONE HAS IT FAILED (provided the disease has not too far advanced) to give relief to the patient, more especially by removing the thirst, diminishing the quantity of urine, and rendering his feelings those of comparative health."

From DR. J. WILSON, Castleton, Yorkshire.

"I require to use a considerable quantity of Chlorodyne in cases where no other medicine is of the least avail; and my object in wishing a supply from your own establishment is, that I am frequently deceived by getting a *spurious* article from other places, although I never order anything but the genuine Browne's Chlorodyne."

VICE-CHANCELLOR SIR W. P. WOOD stated:—

Dr. J. Collis Browne "WAS UNDOUBTEDLY THE INVENTOR OF CHLORODYNE."

Again—"I believe the whole story of the Defendant Freeman to be as deliberately untrue as the falsehood he has deposed to with reference to the use of his Chlorodyne in the Hospitals."

Messrs. V. EDWARDS and J. D. HILL, Resident Medical Officers of the Brompton and Royal Free Hospitals, stated on Affidavit, by direction of the respective Boards, that Freeman's Chlorodyne was not used in those Hospitals, notwithstanding the repeated statements by advertisements that it was largely used there.

Affidavits from numerous Medical gentlemen were produced in Court, to the effect that they had been misled by the Defendant's statements, and that his compound was entirely different to Chlorodyne, and in many instances had proved very deleterious.

The following eminent firms stated on Affidavit that Dr. J. Collis Browne was the discoverer of Chlorodyne, and that they always supplied his preparation as the Original Chlorodyne, or when Chlorodyne was asked for:—

N.B.—Statements that the Formula of Chlorodyne has been published are wholly untrue; be not misled by such unscrupulous announcements; there is none genuine but Dr. J. Collis Browne's.

P.S.—It was submitted in Court that the Defendant Freeman was the same person against whom Sir James Clark filed an Injunction to restrain the use of his name in conjunction with some Pills.—Vide "Pharmaceutical Journal," vol. vii., pages 412 and 450.

THE

# ORIGINAL CHLORODYNE,

INVENTED AND MANUFACTURED BY

# RICHARD FREEMAN.

---

The Right Honourable EARL RUSSELL graciously transmitted to Mr. Freeman—the Inventor and Manufacturer of Chlorodyne—the following extract of a despatch from Acting Consul Webb, dated Manilla, Sept. 17, 1864 :—

"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives."

Chlorodyne is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Medical Men in all parts of the globe, and is justly considered to be a remedy of intrinsic value, and of varied adaptability, possessing the most valuable properties, and producing curative effects quite unequalled in the whole *materia medica*.

No other remedy at present known can be exhibited with so much confidence as a Sedative, an Anti-Spasmodic, an Astringent, or Diaphoretic, in Phthisis, Asthma, Chronic Bronchitis, and Pertussis; as a Sedative and Calmative in Cancer; as an Astringent in Dysentery and Diarrhœa. In each of these affections its use is attended with the most striking results.

"The ORIGINAL CHLORODYNE" is not a mere admixture of certain potent drugs, the virtues of which have been long known and valued by Medical Practitioners, but a new therapeutic agent, and has effects peculiar to itself, and which are essentially different to those resulting from the many preparations bearing the name of Chlorodyne.

In the Chancery Suit, BROWNE *v.* FREEMAN, before Vice-Chancellor Sir W. PAGE WOOD—by whom a decree was made dismissing the Bill, July 12th, 1864,—many eminent London Physicians and Surgeons of long standing in the Profession, and who hold public appointments, made affidavits to the effect that they had extensively prescribed "Freeman's Chlorodyne;" "had used it in comparison with Dr. J. Collis Browne's Chlorodyne; had carefully noted the effects of each, and preferred Freeman's, as being a more certain and reliable preparation, stating in particular that they had not found it to produce headache." It is offered to the Profession as the best preparation, and at a price which allows the poorest sufferer to enjoy its beneficial effects, and to deserve the name of a "wonderful though cheap medicine." Full and explicit directions for use, and a sheet of Medical Testimonials, with each bottle.

AND SOLD BY ALL WHOLESALE DRUGGISTS.

PRICE TO THE PROFESSION:

**In Bottles, 1 oz., 1s. 6d.; 2 oz., 2s. 6d.; 4 oz., 5s.; 6 oz., 8s. 6d.; and 16 oz., 16s. 6d. each.**

---

NOTICE.—Purchasers will please to observe, that outside each Bottle is a Stamp, with the words "FREEMAN'S ORIGINAL CHLORODYNE," engraved thereon in white letters on a red ground, to prevent substitution.

**Caution.**—The large sale, great success, and superior quality of FREEMAN'S ORIGINAL CHLORODYNE is the cause of the malicious statements so constantly made from interested motives by another maker of Chlorodyne. The Trade are particularly urged not to be deceived by such statements, but to exercise their own judgment in the matter, and buy no substitute for THE ORIGINAL CHLORODYNE.

---

J. AND E. BRADSHAW beg particularly to call the attention of the Profession to the improvements they have made in the above articles, whereby all the objections hitherto existing have been overcome.

J. and E. B. have likewise made arrangements for the manufacture of all Surgical Bandages in India-rubber, vulcanized on a principle whereby the elasticity is preserved and not affected by climate, the Bandages being all made from patterns taken from each particular case. A perfect fit is secured thereby, preventing the many evils arising from undue pressure being applied to any part, which must always be the case providing the Bandage is not adapted to each particular case.

Prices, which will be found as low as other makers', notwithstanding the advantages offered, together with directions for measurement, will be sent on application, per return of post.

# INTERNATIONAL EXHIBITION

CLASS 17. 1862. No. 3505.

PRIZE MEDAL AWARDED

TO

## MR. WILLIAM FRAZER DURROCH,

FOR GREAT AND GENERAL EXCELLENCE OF MANUFACTURE OF NUMEROUS

## SURGICAL, OBSTETRIC, AND DENTAL INSTRUMENTS,

Manufacturer of SURGICAL INSTRUMENTS and TRUSSES to the Royal Navy; Greenwich Hospital; Guy's Hospital; Aberdeen Royal Infirmary, &c. &c.

ESTABLISHED 1798.

**OPINIONS OF THE PRESS.**

"All the well-known Manufacturers of Great Britain are represented in the Exhibition, and if we do not specify one as being better than the rest, it is because all are so good. Mr. DURROCH, however, appears to us to be a little in advance of the others as regards Manufacture; and an examination of his case, small as it is, will well reward the interested visitor, for it contains specimens of better work than can perhaps be seen elsewhere in the building."—*Illustrated London News.*

"Mr. DURROCH'S Case contains a large assortment of Instruments, all of which are remarkable as specimens of workmanship of the highest excellence. His Amputating Instruments are as good as can possibly be made at the present time; his Pocket Cases are of small size, and their contents of very superior manufacture; his Obstetric Forceps (and indeed all his Obstetric Instruments) attracted my attention on account of their plainness and exactness; his Cases of Eye Instruments are well selected and beautifully finished, and his Tooth Instruments are as good as the rest. He also exhibits Dr. BRAXTON HICKS' modification of the Ecraseur, by means of which that gentleman now removes Uterine Polypi of considerable size, employing an annealed steel-wire rope, instead of the ordinary chain."—*Report of Superintendent of Class 17, J. Reeves Traer, Esq., Medical Times and Gazette.*

"The fashion of Amputating Knives and Bistouries has not undergone material change since the time of Liston, except that, inasmuch as he rendered them longer, lighter, and narrower in the blade than they were before, they are now lighter and narrower still. For perfection of temper and of polish, nothing can surpass the excellence of all the Cutting Instruments of Mr. DURROCH."—*Jurors' Report.*

**WATERPROOF TRANSPARENT ISINGLASS MEMBRANE PLASTERS.**

Now patronized by Mr. Liston's successor, Mr. Quain, in his hospital and private practice; patronized likewise by Mr. W. Fergusson, Surgeon of King's College Hospital, Mr. J. M. Arnott and Mr. Wormald, of Bartholomew's Hospital. Used for Amputations and other serious wounds requiring observation without exposure to the air.

F. L. P. begs to state there are two qualities, and it is particularly beneficial for Spinal complaints, Ruptures, or any weakened part; likewise for Burns or Scalds, will remove the pain in a very short time. Also, a defensive Skin, to apply between the wound and the lint, and causes less pain in dressing. Likewise a superior Gauze Lisse, of the same adhesive properties as the Membrane. Also, superior Tinted Court Plasters, and Tinted Gold-beater's Skin, by the yard and in cases.

F. L. P. offers his most grateful thanks for the encouragement and kind patronage he has received from the Medical Gentlemen of England and foreign parts, and hopes to merit a continuance of their favours by manufacturing his Plasters with the same unremitting care as heretofore.

F. L. P begs particularly to introduce to the surgeon-dentist, for tender gums, a delicate Plaster, that will adhere to the gold or ivory, and at the same time heal and protect the gums from pressure.

May be had of the Proprietor, 4, York-place, Walworth-road, Surgical Instrument-maker, Chemist, &c., with improved directions how to apply.

## CROSSE AND BLACKWELL,

Purveyors in Ordinary to Her Majesty, respectfully invite attention to their PICKLES, SAUCES, TART FRUITS, and other table delicacies, the whole of which are prepared with the most scrupulous attention to wholesomeness and purity. The practice of colouring pickles and tart fruits by artificial means has been discontinued, and the whole of their manufactures are so prepared that they are not allowed to come in contact with any deleterious ingredient. A few of the articles most highly recommended are, Pickles and Tart Fruits of every description, Royal Table Sauce, Essence of Shrimps, Soho Sauce, Essence of Anchovies, Jams, Jellies, Orange Marmalade, Anchovy and Bloater Pastes, Strasbourg and other Potted Meats, and Calf's-foot Jellies of various kinds for table use. C. and B. are also sole Agents for M. Soyer's Sauces, Relish, and Aromatic Mustard; and for Carstairs' Sir Robert Peel's Sauce, and Payne's Royal Osborne Sauce. The above may be obtained of most respectable Sauce Vendors throughout the United Kingdom; and wholesale of

The Home contains thirty-one beds, twenty-six of which are appropriated to Patients who each pay a certain sum towards the maintenance of the Establishment, and five are reserved for Poor Patients. The scale of charges can be obtained of the Secretary.

The rooms are fitted up and furnished with every regard to comfort.

£10 10s. at one payment constitutes a Governor for Life, £1 1s. annually, a Yearly Governor. Life Governors can recommend either one In-patient, or six Out-patients, annually. Annual Governors can recommend six Out-patients only. Forms of recommendation can be obtained of the House Surgeon.

Since the foundation of the Home, 670 cases have been admitted, of which no fewer than 477 have been cured. A tabular statement of cases admitted, ending June 30th, 1865, has been published with the last Annual Report, and can be had free on receipt of one stamp. A large amount of benefit is also annually dispensed to poor Out-patients recommended by Governors.

The services of the Medical Officers are gratuitous.

Operations every Thursday at TWO precisely, at which all qualified professional practitioners are admitted.

Donations and subscriptions are solicited to the "General Fund," and to the "Building Fund:" the latter is limited to a £10 contribution, conferring on the donor the privileges of a Life Governor, payable to the Treasurer; and it is respectfully requested all drafts may be crossed in the name of the Bank of England, Western Branch. All contributions will be publicly acknowledged once in each month.

## ROYAL MEDICAL BENEVOLENT COLLEGE—*(continued)*.

THE MEDICAL PROFESSION, at the suggestion of an old and valued Member, have endeavoured to found an Asylum for those of their Brethren who, from ill health, want of success, or other adverse influences, have sunk into poverty, and for the Widows of Medical Men in reduced circumstances; with this is combined a School, devoted, in part, to the gratuitous education of Orphans of Medical Men. The purposes are as follow :—

FIRST,—To maintain an Asylum, in which 100 Pensioners, who must be duly qualified Medical Men, or their Widows, not under 50 years of age (possessing incomes of at least £15 and not more than £60 a year), shall be provided with three furnished rooms each, and with such additional assistance and accommodation as the funds may permit.

SECONDLY,—To provide a School, in which a liberal education will be given to 200 boys, the Sons of duly qualified Medical Men; forty of whom will be educated, boarded, clothed, and maintained entirely at the expense of the Institution, while the remainder will be charged at the lowest rate which is found to be practicable.

THIRDLY,—To grant Annuities, or occasional pecuniary assistance, to distressed Members of the Medical Profession or their families, when they can be granted without detriment to the Asylum or School, which are to be ever regarded as the principal objects of the College.

There is a Chapel for Divine worship, according to the ritual of the Church of England.

The "Royal Medical Benevolent College" was first projected in 1851. In the latter part of 1852, subscriptions to a large amount having been received, a site was obtained at Epsom, and on the 6th of July, 1853, the first stone of the College was laid by the Right Hon. the EARL MANVERS, President of the College, in the name of H.R.H. the PRINCE CONSORT, who was prevented by indisposition from being present. On the 25th of June, 1855, the Institution was formally opened by H.R.H. the PRINCE CONSORT, accompanied by H.R.H. the PRINCE OF WALES, and was shortly afterwards occupied by the Pensioners and Scholars who had been elected. On the 14th of July, 1857, the Chapel, the funds for which were provided by a special subscription among the Ladies, was opened by the LORD BISHOP OF WINCHESTER.

During the year 1862, the School Department was perfected by the addition of a large new school-room, additional class-rooms, an atelier, a swimming-bath, and another large dormitory; and the Pensioners' Department was added to during the year 1863, by the construction of a new block of residences, to be called "THE ALBERT WING," in memory of the late lamented PRINCE CONSORT.

There are, at the present time, resident in the College at Epsom twenty-four Pensioners, being aged Medical Men, or their Widows, each of whom is provided with three comfortably furnished rooms, an annual allowance of three and a half tons of coals, and a pension of £21 a year.

There are also resident in the College two hundred boys, the sons of Medical Men, forty of whom, being the Foundation Scholars, are educated, boarded, clothed, and maintained entirely at the expense of the Institution, while the remainder are charged £40 a year each for an education of the highest class, board, washing, use of books, etc., etc. There are also some Day Scholars, who need not necessarily be the sons of Medical Men.

**Donors of TEN GUINEAS are Life Governors of the College; Subscribers of ONE GUINEA Annually are Governors during the continuance of their Subscriptions. All Subscriptions are due in advance on the 1st of January in each year, and must be paid before the elections in order to entitle Governors to vote.**

**The Governors vote at all elections by ballot, either personally or by proxy, and have votes in the proportion of one for each GUINEA subscribed annually, for every TEN GUINEAS given, for every TWENTY GUINEAS collected.**

Any information with regard to the details of the Institution will gladly be communicated, to parties addressing inquiries to the SECRETARY, at the Office of the College, 37, SOHO-SQUARE, by whom Subscriptions and Donations will be thankfully received. Subscriptions will also be received by the TREASURER, the MEMBERS OF THE COUNCIL, the HONORARY LOCAL SECRETARIES, and the BANKERS, Messrs. Goslings and Sharpe, 19, Fleet Street. Post Office Orders should be drawn on the Chief Office, "London, E.C." and made payable to "Robert Freeman."

The Office is open daily from Ten to Five, except on Saturdays, when it closes at Two o'Clock.

THE STAR LIFE ASSURANCE SOCIETY was founded in the year 1843, and has now been before the public twenty-three years, during which period it has increased and prospered in the most satisfactory manner.

ANNUAL REVENUE, &c.—There is now assured by the Society a Sum of nearly Four Millions on the lives of persons, represented by upwards of 11,000 Policies; and the annual revenue derived therefrom, together with interest accruing from investments, is about £140,000.

CLAIMS PAID.—The total claims arising from death which have been discharged by the Society amount in the aggregate to £400,000, the value of which to the recipients bereaved of their friends can never be told.

BONUSES.—Four calculations have been made with a view of appropriating the surplus sum or profit arising from the operations of the Society; at the last, made at the beginning of the year 1864, the Actuary reported that, after putting by £302,814 3s. 4d. as a reserve for future contingencies, there was available for division £122,456 11s. 4d.

ASSETS.—The Assured have the security not only of the Capital Stock, but of a large invested sum, amounting to upwards of £660,000, which, with the well-known character of the Directors of the Society, is a substantial guarantee that all claims will be met with readiness and punctuality.

PROMPT SETTLEMENT OF CLAIMS.—Claims are paid fifty days after proof of death.
